

220 AC 50 HZ SMD Mounting Machine E8T-1200 60000 CPH Mounting Speed 8kw Power

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE CCC ISO
- Model Number: HT-E8T-1200
- Minimum Order Quantity: 1
- Price: US \$76,000-77,000 / Units
- Packaging Details: Standard export package(Wooden case with vacuum package)
- Delivery Time: 15 DAYS
- Payment Terms: T/T
- Supply Ability: 50

Product Specification

- Dimension: 3100*2400*1550 Mm
- Total Weight: 1800 Kg
- PCB Thickness: 0.5-5 Mm
- Mounting Speed: 60000 CPH
- Power: 220 AC 50 HZ
- Transmission Speed: >500 Mm/sec
- Highlight: **smd pick and place machine,
smd led mounting machine**

Product Description

Technical Parameter**led bulb assembly machine/smt production line**

Dimension	Length	3100MM
	Width	2400MM
	Height	1550MM
	Total Weight	1800kg
PCB	PCB length width	Max:1200*350 mm Min:50*50mm
	PCB thickness	0.5~5mm
	PCB Clamping	Adjustable pressure pneumatic.
O.S.	system	Windows7
	software	R&D independently
	Display	LED Monitor
	Input Device	Keyboard, Mouse
Feeding system	No. of feeders	2*17PCS
	No. of nozzles	Dual module, totally 16
	Feeder type	Electronic feeder
Vision System	No. of Camera	4 sets of imported camera
		Vision for the flight identification + MARK correction
	Mounting Precision	±0.02mm chip
	Mounting Height	<15mm
	Mounting Speed	60000CPH(optimum)
	Components	LED, capacitors, resistors, shaped components, etc(Max:17mm Min:0603)
	Components Space	0.2mm
	Power	220AC 50HZ
	Power Consumption	8 kw
	Operating Environment	23 ±3
	Conveyor Transmission	Max Length:500mm
	Transmission Speed	>500mm/sec
	Transmission Direction	Single(left→right or right→left)
	Transmission Mode	Online drive
	Air pressure	>5.0kg/cm2
	Electrical control	Independent research and development by ETON
	Motion control card module 2 sets	Independent research and development by ETON
	X,Y Axes Driving	Servo motor

Features

Double module multi-functional high speed mounter.

Dual system, dual module multi-functional mounter.

Mounting components: LED,capacitors,resistors,IC,shaped components,etc.

Applicable to vibration feeding system for lens.

Exclusive patented technology:

Electronic feeder feeding system
Vision for the flight identification, Mark correction
Non-stop refueling capabilities
Auto-optimization feature after coordinated generated, etc.
Produce two different products at the same time.

Company Introduction

Shenzhen Eton Automation Equipment Co.,Ltd mainly takes professional, efficient and low consumption SMT full- automatic high-speed laminating machine as its responsibility, national high-speed technology enterprise integrating product development,production,sales and service.

ETON mission: professional, excellent technology, sharing the results.

ETON goal: to create a national brand, to build international Chinese enterprise.

ETON' s purpose: to create value for customers, to create benefits for society.

Packing & Shipping

We use standard export packing(wooden case with vacuum packing)and deliver the goods at ShenZhen port 15days after payment.

After Sales Service

Maintenance Period: 1 year.(whole machine, any parts need to be repaired or replaced will be free)

Upgrade the software will be free

Visit customer regularly and gather information.

Provide latest information about technology and equipment.

Why choose us?

Our multi-function SMT machine adopts 16 suction nozzles in a total of dual module, USES the technology of exclusive patent of electronic feeding system and applies to a variety of LED lamp products. Complete the use effect of multiple configurations of one machine

FAQ

Q:How long is the time of delivery?

Generally, the test delivery period is one month.

Q:If my order is very urgent, how long you can proceed?

We have helped many clients with their urgent demand. If your order is urgent, please check with our specialists to see if we can help.

Q:How are the products packed for sea shipment?

Most of the products have their unique packing, Then we put them into a carton. The cartons are sealed with tape.

Q:How can you make sure that the products won't be damaged or wet?

We take multiple measures to protect the products. They are first packing with individual. We put them into a carton and wrapped with plastic film and sealed with tape to keep the cartons in position and protect them from water.

Let's establish a cooperative relationship!

We have special research in machine technology and will follow up the problems of the machine at any time. Not only can we do the best in production and after-sales service, but our company focuses on creating the lowest cost SMT scheme.

Please feel free to contact me.
