

220 AC 50 HZ Smd Led Mounting Machine High Capacity 2-4 Materials Long Lifespan

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE CCC ISO
- Model Number: HT-T7
- Minimum Order Quantity: 1
- Price: US \$85000 - 86000 / Unit
- Packaging Details: Standard export package(Wooden case with vacuum package)
- Delivery Time: 30
- Payment Terms: T/T
- Supply Ability: 50

Product Specification

- Dimension: 2200*2850*1550 MM
- Total Weight: 1600 KG
- Wire Plate Size: Max 250 MM* Any Length
- Mounting Speed: 100000 - 150000 CPH
- Power: 220 AC 50 HZ
- No.of Nozzles: 30 PCS
- Highlight: **smd assembly machine,
smd pick and place machine**

Product Description

specialty

Producing with 2-4 types of materials with high capacity, available for 5M, 50M or any length of soft lamp strip continuously. Two model, 15 nozzles for each mounting part, part A or part B can be mounted separately or synchronously. Global first technology patent: counterfeiting not allowed.

IPC 9850 Capacity:100000-150000 CPH

Patent number: ZL 2011 2 0237740.9 ZL 20 11 2 0334606.0

ZL 2012 2 0178869.1 ZL 2012 2 0415505.0

ZL 2012 2 0415044.7 ZL 2012 2 0415356.8

ZL 2012 2 0415061.0

Packing & Shipping

Package used Standard export package(Wooden case with vacuum package)

Shipping in Shenzhen port within 15 days after payment

LED moulder HT-T7 with double module. 15 nozzles for each module, part A or part B work separately or synchronously. The minimum pitch of nozzle is 14 MM, the nozzles can be adjusted freely if the width of each array is belt for transmission PCB, vision alignment for each meter, Mark correction, mounting continually for any length of strip, this is the Global only one SMT solution for mounting automatically of 5M, 50M etc. flexible strip.

Technical Parameter

led bulb assembly machine/smt production line

Soft lamp strip	Wire plate size	250MM* any length
	Wire plate thickness	0.5~5mm
	Wire plate clamping	Adjustable pressure pneumatic.
	Mounting Mode	Group to pick and group to mount
O.S.	system	Windows7
	software	R&D independently
	Display	LED Monitor
	Input Device	Keyboard, Mouse
Feeding system	No. of feeders	60 PCS
	No. of nozzles	30 PCS
	Feeder type	Electronic feeder
	No. of Camera	5 sets of imported camera
		Vision for the flight identification + MARK correction
	Mounting Precision	±0.02mm chip
	Mounting Height	<15mm
	Mounting Speed	100000-150000CPH(optimum)
	Components	LED 3014/3020/3528/5050 and resistor, capacitors, bridge rectifiers.
	Components Space	0.2mm
	Power	220AC 50HZ

Vision System	Power Consumption	5 kw
	Operating Environment	23 ±3
	Conveyor Transmission	Belt drive
	Transmission Speed	>500mm/sec
	Transmission Direction	Single(left→right or right→left)
	Transmission Mode	Online drive
	Air pressure	>5.0kg/cm2
	Electrical control	Independent research and development by ETON
	Motion control card module 2 sets	Independent research and development by ETON
	X,Y Axes Driving	Servo motor for closed-loop feedback control for X,Y axes

About the quality:

Maintenance Period: 1 year.(whole machine, any parts need to be repaired or replaced will be free)
 Upgrade the software will be free
 Visit customer regularly and gather information.
 Provide latest information about technology and equipment.

FAQ

Q: What are your advantages?

Our company stick to five level management policy: sincere business, focus on R&D, manufacturing intentions, considerate service, customer trust.

Q : Is there any quality guarantee?

We stick to quality first, client-oriented, Continuous improvement!

Q: What is SMT Machine?

This is an LED lamp patch machine using surface mount technology.

Q: Whether the machine's after-sale service is guaranteed?

Each of our machines has a one-year warranty and will regularly visit customers for use.

Company Profile

Shenzhen ETON is a LED mouter in this line about 12 years. With the trends of global green, energy-saving and requirements of production process, ETON did research and development cooperated with the experts from United States, Taiwan, Hong kong and multi-technical staff for four LED automatic High-speed placement machine products. which solves the problems of the long light board low capacity and higher labor costs, we also got many patents for invention by the sate.
