

Highspeed flexible strip pick and place machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC
- Model Number: HT-F7
- Minimum Order Quantity: 1 set
- Price: 85000 USD
- Packaging Details: Wooden case
- Delivery Time: 4 weeks after payment
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 50 sets per month

Product Specification

- Name: Pick And Place Machine
- Max PCB: 330*1200 Mm
- Min PCB: 80*330 Mm
- System: Windows 7
- Precision: 0.02 Mm
- Capacity: 100000-150000 Cph
- Total Weight: 1400kg
- Highlight: **smt pick and place equipment,
smt mounter machine**

Product Description

Highspeed flexible strip pick and place machine

Application:

HT-F7 is suitable for produced led tube, led panel light, led strip.

Characteristics :

The most prominent feature of F7 is dual-purpose professional high-speed mounter, producing with 2-4 types of 150000 CPH capacity . It will improve your production efficiency, save labor, space, power, etc. And F7 can apply to the 0.6m, 0.9m, 1.2m LED rigid PCB and 0.5m,1m flexible strip. And group to pick and group to mount is our exclusive patent technology.

Parameter:

High-speed flexible strip pick and place machine	
Max pcb length& width	1.2*0.33 m
Min pcb length& width	0.08*0.33 m
Pcb clamping	Adjustable pressure pneumatic
Power	220AC 50 HZ
Conveyor Transmission	Belt drive

Structure of the machine:

- 1.The length of HT-F7 is 2.7m, the width is 2.45m, the height is 1.53m and total weight 1400 kg.
- 2.From above picture, there are two mounting modules, and 18 nozzles and 36 electric feeders for each mounting part
- 3.About the X,Y,Z axis drive way, it is control by servo motor.

Attention:

1. Do not use the machine in a gas or extremely dirty environment.
- 2.Before using the Pick and Place machine, you must understand the common label of the placement machine.
- 3.Regular detection not only good for the machine running, also for the long life of machine.
- 4.Machine operators should be trained in the operation of the correct method.

Company Information:

ETON IS is the manufacture of smt machine, set up in 2011, before ETON set up, there are a long time to research and development about the technology from 2007-2011.

From 2011, ETON began develop fast. In 2011, HT-12 series began selling, HT-E3 was complete research and development. In 2013, got "Shenzhen high-tech enterprises" certification. HT-XF/HT-E4 /HT-E16 was completed R&D and begin selling. From 2014-2018, ETON has launched a variety of models, which save much labors and space of production, got large market share in USA, KOREA, INDIA, GERMANY, EGYPT, TURKEY, VIETNAM, TUNISIA, THAILAND more than 20 countries. Looking forward to the future, we believe that ETON will seek to be better achievement in SMT field and make greater contributions to the industry and society!

Logistics and delivery:

In order not to cause the machine to collide during handling, our machine packing adopt vacuum add wooden box packing. It is very firm.

Also our can accept shipping or training , even flying, it is according to the customer needs. In generally, the machine will be delivery in four weeks after payment.

After sales service

We will sent our engineer to install and training on-site service.

The maintenance period is one year.

Professional service department, can solve our customer problem quickly.

We will visit customer regularly.

During the warranty, any parts need to be repaired and replace will be free.
