

led light making machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC
- Model Number: HT-E5S
- Minimum Order Quantity: 1 set
- Price: 43000 usd
- Packaging Details: Wooden case
- Delivery Time: 4 weeks after payment
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 50 sets per month

Product Specification

- Warranty: 1 Year
- Weight: 1600 Kg
- Max Pcb: 250 Mm * Any Length
- System: Windows 7
- Capacity: 100000-150000 Cph
- Power: 5 Kw
- Highlight: **smt pick and place machine ,
smt pick and place equipment**

Product Description

led light making machine

Greening is an inevitable trend in the future development of electronic manufacturing. The development of human society is bound to move toward harmony between people and nature. Of course, the placement machine is no exception. Future placement equipment must start from the conception, in the design stage, manufacturing stage, sales stage, use and maintenance stage, to the recycling stage, remanufacturing stage, must fully consider the impact on the environment, improve material and energy efficiency, reduce energy consumption, maximizing user investment benefits.

Led lighting is the future of lighting

As the green is the trend of future development, LED energy-saving lamps are the development direction of the future lighting industry, whether it is lamps, bulbs, street lamps, etc., the design is led by led as the main components.

HT-E5S is professional for led lighting

HT-E5S is magnetic linear motor multifunctional pick and place machine. It is very important in smt production line. It can produce led bulb, led panel, street lamp, power driver, led modules, and so on.

Led light making machine

As a new generation of electronic assembly technology, SMT has developed rapidly in the past 20 years and has a wide range of applications. It has penetrated into most of the electronics industry and has partially or completely replaced traditional circuit board through-holes in many fields.

The features of HT-E5S

- 1.It's component min size is 0402, max height is 36 mm
- 2.It's electronic feeder feeding system
- 3.It support non-stop material re-loading function
- 4.It support auto-optimization after coordinates generated.

Important parameter:

PCB	
PCB Length Width	Max:500*350mm Min:100*100mm
PCB Thickness	0.5-3mm
PCB Clamping	Electric clamping + Adjustable pressure pneumatic
Mounting Mode	Group Picking and separate placing/Separate picking and separate placing
Vision System	
No. of camera	2 Sets of imported camera Vision alignment, MARK correction
Mounting precision	±0.02mm
Mounting Height	<36mm
Mounting Speed	40000CPH
Power	380AC 50Hz
Power Consumption	4KW
Conveyor Transmission	Max Length:500mm
Electrical control	Independent research and development by ETON
X.Y.Z Axis Driving	High-end magnetic linear motor + servo motor

Our service:

We highly value after-sales service:

1. We will provide one year warranty, during warranty, any parts need to be repaired and changed will be free.
2. We will send our engineer to your factory to install and training, in freely.
3. We have a special overseas sales department, can support quickly.

Contact us:

We are located in Shenzhen, China.

Add: 44th Building, 5th Cuigang Industrial Area, Fuyong, Baoan District, Shenzhen, China

You can find us with many ways:

1. Website: www.smtmountingmachine.com
2. Wechat/Whatsup/phone: +86-135-9015-1025
3. Tel: 400-998-3211
4. E-mail: et83@eton-mounter.com / joy@eton-mounter.com
