smtmountingmachine.com

## 40000cph Speed Smt Pick And Place Machine Windows 7 System 1 Year Warranty

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC
- Model Number: HT-E8S
- Minimum Order Quantity: 1 set
- Packaging Details: Wooden case
- Delivery Time: 4 weeks after payment
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 50 sets per month

#### Product Specification

- Warranty: 1 Year
- Apply: SMT Production Line
- Weight: 1250 Kg
- MAX Pcb: 1200\*350 Mm
- System: Windows 7
- Speed: 40000 Cph
- Highlight: **smt pick and place machine ,  
smt pick and place equipment**

## Product Description

### smt led making machine

At present, the assembly density of electronic products is getting higher and higher. The volume is getting smaller and smaller. The weight is getting lighter and lighter. The size and weight of the chip assembly is only about 1/10 of that of a conventional plug-in assembly, or even small. With SMT placement technology, the volume of electronic products can be reduced to 40% to 60%, and the weight can be reduced to 60% to 80%.

Therefore, with the development of the market, the prospect of smt industry will be better and better, whether it is led lighting industry or smt electronic industry, only follow the footsteps of the market, in order to seize more consumers and create greater value.

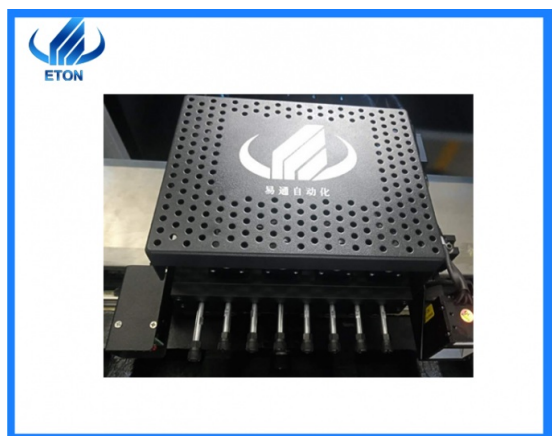

#### HT-E8S suitable for SMT production line:

In the total smt production line, there are loader conveyor, printer, pick and place machine, reflow oven, unloader. And HT-E8S is the multifunctional pick and place machine, for mounting the led lighting and electric board. Such as the led tube, led panel, led bulb, led lens, power driver, and do on.

Meanwhile, it is very intelligent, can be supported non-stop material re-loading function. Mounting many size components, the max size is 17 mm, the min size is 0402, for led ,capacitor, resistor, shaped components, ic, and so on.

#### Max PCB length and width:

For HT-E8S, the max pcb length and width is 1200\*350mm, usually meet most production needs. Also, the min size is 100\*100 mm. And the thickness is 0.5-5mm, it is clamping by adjustable pressure pneumatic.

#### Easy operating system:

HT-E8S is windows 7 system, the software is R&D independently, the display is screen monitor, and the input device is using keyboard and mouse. For our User-friendly design, usually 3 to 5 days training of operating is enough.

#### Technical parameter:

HT-E8S Double module Technical Parameter	
Dimension	
Length	2550mm
Width	1650mm
Height	1550mm
Total Weight	1250kg
Vision System	
No. of camera	2 Sets of imported camera Vision alignment, MARK correction
Mounting precision	±0.02mm
Mounting Speed	40000CPH
Power	380AC 50Hz
Power Consumption	4KW
Electrical control	Independent research and development by ETON
X.Y.Z Axis Driving	High-end magnetic linear motor + servo motor

#### ETON Company :

We established the Taipei R&D Center in 2007, and started the special chip mounter technology and patent research and development. In 2008, Hong Kong Hongyitong Group Co., Ltd. was established. Yitong has made great achievements in the field of LED and has been working hard. In the smt field of technological innovation and development, since the development of multi-functional placement machine in 2013, after years of painstaking research and development, finally made breakthroughs in technology, successfully developed a variety of multi-functional placement machines, and It can perfectly mount various drivers, power supplies, circuit boards, lenses, linear bulbs, home appliance control panels and other products. Yitong's success is based on understanding the market and focusing on technology. In the future, Yitong will continue to

maintain stable development and expand its territory in the smt field.

**Contact us:**

Through the above brief introduction, you can get a preliminary understanding of our products and companies. If you want to know more about cooperation and cooperation, please contact us through the following methods:
