High Performance LED SMT Semi Automatic Stencil Printer PCB Soldering Printer

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE
- Model Number: ET-S1200
- Minimum Order Quantity: 1
- Price: 3100USD
- Packaging Details: Wooden box
- Delivery Time: 15 days
- Payment Terms: T/T, Western Union
- Supply Ability: 100 Units/ Per Month

Product Specification

- Condition: New
- Name: Semi-automatic Printer
- Product Name: ET-S1200
- Length: 1600MM
- Weight: 360KG
- Power: 220V 50/60Hz
- Highlight: solder paste stencil printer, semi auto screen printer

Product Description

Good New LED SMT Printer Machine PCB Soldering Printer ET-S1200

Use of solder paste printing machine

The solder paste printer is a material used to bond various components and PCBs after solder paste is applied to the PCB. Generally used for various PCB assembly SMT lines.

The advantages of using printer machine?

The use of a solder paste printer can increase production efficiency and improve printing accuracy and stability. With the mechanization of production, solder paste presses are becoming more and more popular for PCB assembly lines.

The features of semi-automatic solder paste printer

- (1) the governor motor drive scraper, combining precision linear guide, ensure the printing precision;
- (2) printing scraper can rotate 45 degrees of fixed upwards, printing plate and scraper cleaning and replacement;
- (3) the scraper holder can adjust forward and backward, to select the suitable printing position;
- (4) combined printing platen, has a fixed groove and positioning PIN, easy installation and adjustment, it is used for single and double panel printing;
- (5) steel bar-mesh mobile school edition way, combined with the printing machine (PCB) XYZ calibration adjustment, convenient and quick.
- (6) can be set unidirectional and bidirectional multiple printing methods.
