

SMT Pick and Place Automatic Online Washing Smt Pcba Pcb Assembly Line Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE
- Model Number: Pcb cleaning machine
- Minimum Order Quantity: 1 set
- Packaging Details: Wooden case
- Delivery Time: 4 weeks after payment
- Payment Terms: L/C, T/T
- Supply Ability: 50 sets per month

Product Specification

- Name: Pcb Cleaning Machine
- Function: Apply To Pcb Or Pcba
- Spare Part: One Set Of Electric Control Box
- Dimension: L600mm*W980mm*H1200mm
- Min Substrate Size: 50*50 Mm
- MaxSubstrate Size: 330*350 Mm
- Package: Wooden Case
- Highlight: **high speed led mounting machine, smt assembly machine**

Product Description

PCB cleaning machine

Why do you need a PCB cleaner?

The PCB is not strictly cleaned when leaving the factory. The PCB board surface cleaning machine has a large amount of debris and dust remaining on the surface, edge and through hole of the PCB. The PCB is easy to generate static electricity during the process, which is easy to cause in the SMT process. Static damage or adsorption of dust. Foreign matter such as dust can cause poor printing, such as poor soldering, empty soldering, component warping, skewing, etc. Cleaning the PCB can prevent and reduce the generation of defective products and improve the quality, so as to enhance the reliability of the product.

Features of ETON pcb cleaning machine

The brush drive adopts digital speed stepping motor, 200-1200 rpm, and the anti-static brush cleaning effect is more ideal.

Automatically sense and release positive and negative ions with an electrostatic precipitator to ensure product safety.

Specially designed vacuuming mechanism with silent high pressure fan to absorb dust effect is more ideal.

Set of electric control box

Technical parameter of ETON pcb cleaning machine

- 1.Dimension:L600mm*W980mm*H1200mm
2. Min Substrate size is 50*50mm and Max is 330*350mm
- 3.Transfer motor is using Stepper motor
- 4.Transfer speed is 0-17.5 m / min
5. Mitsubishi PLC control, operation panel for display control touch screen
6. Single(left→right or right→left) Transmission Direction

ETON company

ETON is the manufacture of smt machine, we are on sell conveyor, loader, unloader, pcb cleaning machine, vacuum loader, pick and place machine, stencil printer, and so on.

We set up in 2011, got large market share in African and Asia, and it is our goal to be know all over the world and do a great improve of smt technoly.
