

## PLC Control Pick And Place Machine Movement Unloader Vacuum Pcb Loader Durable

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC
- Model Number: Vaccum loader
- Minimum Order Quantity: 1 set
- Packaging Details: Wooden case
- Delivery Time: 4 weeks after payment
- Payment Terms: L/C, T/T
- Supply Ability: 50 sets per month

#### Product Specification

- Product: Pcb Suction Machine
- Warranty: 1 Year
- PCB Size: L500\*W390MM
- Dimension: L600\*W950\*H120mm
- PCB Storage: 100 Pcs
- Operation Control Panel: Display Control Touch Screen
- Highlight: **smt pick and place equipment,  
smt assembly machine**

## Product Description

### Movement Unloader Vacuum Pcb Loader For Pcb Assembly Production Line

#### Vacuum loader

Vacuum loader, the machine is mainly suitable for SMT production line of the stack of the bare plate, automatically sent to the backend equipment by means of vacuum adsorption, with functions of automatic upper, can and send machine supporting the use, also can be used when bare plate machine.

#### Features

Control system adopts PLC control, adopt touch screen operation interface.

Using vacuum adsorption transfer upper plate down, can be stacked PCB 100pcs.

Extension of interval can adjust automatically according to the thickness of PCB.

Is equipped with a standard the SMEMA signal port, can even online with any other equipment.

The lifting platform is driven by a brake motor, which can be accurately positioned and can be selected as four lifting positions for lifting plates.

#### Parameter

|                             |  |
|-----------------------------|--|
| Item                        | Vacuum loader                          |
| Dimension                   | L600*W950*H120mm                       |
| PCB size                    | L500*W390MM                            |
| PCB storage                 | 100PCS                                 |
| Rail transfer height        | 920±30mm                               |
| Shipping direction          | Right to left/left to right            |
| Conveyor belt               | 7MM flat belt                          |
| Conveyor transmission speed | 9M/min                                 |
| Operation control panel     | Display control touch screen           |
| Controller                  | Mitsubishi PLC programmable controller |

#### Related products

In smt line, there are many machine working for transportation and delivery pcb, such loader, unloader, conveyor, and so on. We are on sell many kind of smt line, not only above machine, but also pick and place machine, reflow oven, stencil printer, etc.

Provide the most comprehensive service

We attach great importance to the sense of responsibility of our customers. If you choose us, we will give our customers the most thoughtful service before, during and after the sale.

| ETON service     |   |
|------------------|---|
| Before the sale: | We will introduce the machine enthusiastically and let our customers understand our products in all aspects.              |
| During the sale: | We will provide our customers with the most suitable machine for their production line.                                   |
| After the sale:  | We have a comprehensive after-sales guarantee process, such as the standard warranty, the free install and training, etc. |
