

5 meters led strip pick and place machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC CE SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1
- Packaging Details: wooden case
- Delivery Time: 30 days after pay
- Payment Terms: L/C, T/T
- Supply Ability: 50 set/month

Product Specification

- Name: Strip Machine
- Module: HT-T9
- Apply To: 5 M/10m/15m/20m/25m/50m Flexible Strip
- Capacity: 200000cph
- Warranty: One Year
- Total Weight: 1700 KG

Product Description

5 meters led strip pick and place machine

Pick and place machine

The pursuit of miniaturization of electronic products, the previously used perforated plug-in components have been unable to shrink.

The functions of electronic products are more complete, and the integrated circuits (ICs) used have no perforated components, especially large-scale, highly integrated ICs, and have to use surface mount components. The products are mass-produced and the production is automated. The factory must produce high-quality products at low cost and high yield to meet customer needs and strengthen market competitiveness.

The development of electronic components, the development of integrated circuits (ICs), and the diverse applications of semiconductor materials.

5 meters LED lightings

For LED Flexible strip mounters, there have to use high speed pick and place machine. It is professional for flexible strip. No matter 5 meter, 10meters, 15meters or 50meters. It is all suitable for .

Besides, we are the manufacturer of smt machines, can support the whole smt line machines. Include Pick and place machine, stencil printer, reflow oven, conveyor.
The capacity can be reach 20000 cph.

Apply to

HT-T9 suitable for mounting different kinds of LED and IC, Capacitors, Resistors, etc.

High capacity

HT-T9 total 68 heads, 34 heads for each mounting part, part A and part B can be mounted separately or synchronously. So it is mounting speed around 200000 chip per hour.

High precision

There are 5 sets of imported camera which are imported from Germany, and the vision alignment and mark correction all promise the high precision----0.02mm.

QAQ

Q1: Do you have office in India?

A: Yes, We have office in Delhi, will set up second office in Mumbai

Q2: Can T9 produce 5 meters flexible strip ?

A: Yes, T9 suitable for 5 meters, 10meters, 15meters, 25meters, 50meters and unlimited length of flexible strip.

Q3: Do you have sample?

A: No, for machine, there is no sample.
