High Speed LED SMT Automatic Pick and Place Machine HT-T9 Strip Light Making Machine

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE,CCC,SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1
- Price: USD 95000~100000
- Packaging Details: Customized wooden box
- Delivery Time: 30 Days
- Payment Terms: T/T
- Supply Ability: 100 Sets per Month

Product Specification

- Product: Pick And Place Machine
- Dimension: 3100*2300*1550MM
- Weight: 1700KG
- PCB Size: 250MM*Any Length
- Components: LED, Resistor, Capacitor, Bridge Rectifiers
- Heads: 68
- Feeder Stations: 68
- Speed: 200K CPH

Product Description

Roll to Roll LED Strip High Speed Pick and Place Machine HT-T9

Features of HT-T9

· HT-T9 SMT pick and place machine is for 5 meters, 50 meters and any length of wire board, disposable mount. Apply to LED soft lamp manufacturer.

· HT-T9 is for the two modules, dual-group interact to mount around, each module can be installed 32 nozzles. A**chieving any length PCB uninterrupted pasted on. This mode is 5M,50M etc**. And it's identified the correct position by camera. So it's high precision and good stability.

Specific technical parameter

Length*Width*Height		2975mm*2285mm *1550mm
Total Weight		1600kg
PCB Length Width		250mm*any length
Mounting Precision		±0.02mm chip
Mounting Speed	200000 CPH(optimum)	
Components Speed	0.2mm	
Power	380AC 50HZ	
Power Consumption	7kw	
No. of feeders	64PCS	
Components	LED 3014/3020/3528/5050, resistors	

Services

Before buying machine

1) Professional sales manager of LED SMT machine, provide professional suggestion and service to you !

2) 24 hours online service and technical support, solve your questions quickly!

3) Sound company organization and working system, guarantee you a fast delivery!

4) Design and provide the whole SMT processing lines for you based on your budget , workshop covering area with best prices!

After buying machine

1) 1 year free warranty

2) Visit customers regularly and gather information.

3) Provide latest information about technology and equipment.

What is SMT?

SMT is an electronic mounting technology that directly pastes and solders surface assembled components (types including resistance, capacitance, inductance, etc.) to the surface of the circuit board using professional automatic assembly equipment such as solder paste printers, chip mounters, reflow soldering One of the most popular technologies and processes in the electronic assembly industry.

Let's light up your business!

We are very experienced in the establishment of led production line. If you are interested in our products or want to enter the LED business, Please feel free to contact me.
