

DOB linear bulb solar panel down-light smt pick and place machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC CE SIRA
- Model Number: RT-1
- Minimum Order Quantity: 1
- Packaging Details: wooden case
- Delivery Time: 30 days after pay
- Payment Terms: L/C, T/T
- Supply Ability: 50 set/month

Product Specification

- Name: Smt Machine/pick And Place Machine/mounter/led Lighting Machine/chip Mounter
- PCB Size: 400*350 Mm
- Speed: 35000 Cph
- Mini Size: 0402
- Apply To: SMT Line
- No.of Nozzles: 10 Pcs

Product Description

DOB linear bulb solar panel down-light smt pick and place machine

Apply to

ETON Pick and place machine RT-1 is the multifunctional module.

It is very suitable for electrical board and led lightings, like the dob bulb, panel, downlight, display, street light, power driver, etc.

Features

Standard pcb size is 400*350mm, can be ordered 1200*350 mm, can be apply to 1.2m rigid board and flexible board.

Using Magnetic linear motor

Vision alignment flight identification, mark correction

Auto-optimization after coordinates generated.

Mounting Mode: Group picking and separate placing, separate picking and separate placing.

Technical parameter

1.Dimension

Length	1200 mm
Width	1930 mm
Height	1750 mm
Total weight	2200 kg

2.O.S

System	Windows 7
Software	R&D independently
Display	Touch screen monitor
Input Device	Keyboard, Mouse

3.PCB

Pcb Length Width	Max:400*350 mm
Pcb thickness	0.1-6 mm
Pcb clamping	Electric clamping
Mounting Mode	Group picking and separate placing, separate picking and separate placing

4.Capacity

No.of feeders station	32 pcs
No.of nozzles	10 pcs
Mounting speed	30000-35000 cph

Company information

It has been almost ten years since ETON was established. During these ten years, our machines have been continuously updated, and technical parameters have been breakthrough developments. The speed, accuracy, frame, and even refueling methods of the machine have been improved. . At present, ETON occupies a large LED market in the domestic market, and we are constantly seeking new growth points in foreign markets. In the near future, our machines will adapt to more fields and serve more electronic suppliers

Show power

We have more than 8 kinds of modules, each modules have different speed and suitable for different components. From 35000 cph to 200000cph. We can say that our machine is fastest pick and place machine in the world.

Packing and shipping

Usually, the delivery time is around 30 working days after ordered.

We using wooden package.

Service

The most important services are support free install and training. One year warranty, during warranty, any parts need to be repaired and replaced will be free.
Also we support online support for all over clients and will visit clients factory with regularly.

FAQ

What is the smallest component that your machine can mount?

A: Our machine suitable for mini size is 0402.

After the warranty period, can I purchase more warranty periods

A: Yes, Of course. You can buy more warranty.

Are your software updates free?

A: Yes, Software is R&D by ETON. We support whole life free updates.
