

Adjustable 6kw 380AC 200000 CPH Led Chip Making Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC
- Model Number: HT-T9
- Minimum Order Quantity: 1
- Packaging Details: Wooden case

Product Specification

- Name: Pick And Place Machine
- Warranty: 1 Year
- Dimension: 3100*2300*1550
- Weight: 1700 Kg
- Pcb Length: Any Length
- Speed: 200000 Cph
- Highlight: 6kw Led Chip Making Machine,
200000 CPH Led Chip Making Machine,
380AC Pick N Place Machine

Product Description

SMT pick and place machine led chip making machine

Parameter list

Here are the strip light machine (led lighting making machine/pick and place machine) main parameter.

PCB	
PCB Length Width	250mm*any length
PCB Thickness	0.5-1.5mm
PCB Clamping	Adjustable pressure pneumatic
Mounting Mode	Group to take and group to mount
Vision System	
No. of Camera	5 PCS (Digital camera) Vision alignment, MARK correction
Mounting Precision	±0.02mm
Mounting Height	≤5mm
Mounting Speed	200000 CPH
Components	LED 3014/ 3020/ 3528/ 5050 and capacitors, resistors, bridge rectifiers, etc.
Components Speed	0.5mm
No. of Feeders Station	68 PCS
No. of nozzles	68 PCS
Power	380AC 50 HZ
Power Consumption	6kw
Operating Environment	23 ±3
Conveyor transmission	Max Length :1000 mm
Transmission speed	>500mm/sec
Electrical control	Independent research and development by ETON
Motion control card module 1 set	Independent research and development by ETON
X,Y,Z Axis Drive way	High-end magnetic linear motor+ servo motor
Feeding way	Electric feeder with double motor

Machine features

Dual arm four modul, 17 nozzles for each mounting part, part A or part B can be mounted separately or synchronously.

Calibration automatically, high precision, available for RGB.

Exclusive patent technology: Group to pick and group to mount.

Machine application

HT-T9 SMT strip light making machine mainly using in SMT strip light production line. For picking led chip and then mount on the PCB. In actual production line, it is using in led lightings, professional for 5 meters, 15meters, 25meters, 50 meters.

Multicolor led strip light,suitable for differernt length

Machine lines

For 25m strip light line, it is special, because for so long strip , it need to have good design, like the conveyor length and the buffer machine. For strip line, we can provide 0.5m, 1m, 5m,25m,50m strip line design. Please contact us for more production line design.

ETON PROGRAM

ETON - HT-T9 25m No-wire flexible strip Production Line

FAQ

May I have your machine video?

A: Of course. We will share machine information with you once you contact me. But it is more easy to share video and picture about the machine.

Do you have tech team of yourself?

A: Yes, We have our own team. The software and drive control , all machine is design by ourselves. So we also support whole life free .
