

1.2m Pcb 200000cph SMD Mounting Machine For Led Lighting

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC
- Model Number: HT-F9
- Minimum Order Quantity: 1
- Packaging Details: Wooden case
- Payment Terms: L/C, T/T
- Supply Ability: 50 PCS PER MONTH

Product Specification

- Name: Pick And Place Machine
- Module: HT-F9
- Speed: 200000cph
- Apply: Led Strip Light/panel Light/Tube Light
- Components: LED, Resistor, capacitor, IC, shaped Components
- Dimension: 2700*2300*1550 Mm
- Highlight: **1.2m Pcb SMD Mounting Machine,
200000cph SMD Mounting Machine,
68 Feeders Led Lighting Mouter**

Product Description

PCB Pick and place machine for strip and panel light

Why choose led flexible strip light?

The flexible LED light bar is assembled with FPC as a circuit board and assembled with SMD LEDs. The thickness of the product is only the thickness of a coin and does not take up space. The general specifications are 30cm long, 12 LEDs, 24 LEDs and 50cm long. 15 LEDs, 30 LEDs, etc. There are also 60cm, 80cm, etc., and different users have different specifications. And it can be cut at will, and it can be extended at will without affecting the light emission. The FPC material is soft, can be bent, folded, and wound arbitrarily, and can be moved and stretched in three-dimensional space without breaking. It is suitable for use in irregular places and places with small spaces, and because it can be bent and wound arbitrarily, it is suitable for arbitrarily combining various patterns in advertising decoration.

Automatic SMD machines

F9 is one of our pick and place machine module, it is very fast speed, can reach 200000 cph with 68 feeders and 68 nozzles. Much power and high precision with Magnetic linear motor control.

Much multifunctional, suitable for mounting all kinds of led chips, like the 3014, 3020, 3528, 5050, and resistor, ic, capacitor, etc.

Apply to the 0.6m, 0.9m, 1.2m rigid pcb and 0.5m, 1m led flexible strip . Producing 4 types materials at the same time with high capacity, availed for board with any proportion of LED chip and resistor.

Dual arm four modules , 17 nozzles for each mounting part, part A/part B/part C/part D can be mounted separately or synchronously.

68 heads
68 feeders
200000 cph

Application

ETON Machines suitable for all kinds of led lightings and electrical boards. Like the led strip light, tube, lens, panel, bulb, dob, power driver, display, etc.
