

15mm Mounting 45000CPH LED Bulb Making Machine 0402 Component

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC\CE\SIRA
- Model Number: HT-E8S-600
- Minimum Order Quantity: 1 set
- Packaging Details: Wooden case
- Supply Ability: 50 sets /month

Product Specification

- Quality: Best Quality
- Type: Single Module Machine
- Component Size: Min Size 0402
- Feeder Station: 28 PCS
- Nozzles: 12 PCS
- Period For Delivery: 30 Days After Deposit
- Highlight: **45000CPH LED Bulb Making Machine,
15mm Mounting LED Bulb Making Machine,
0402 Component Pick Place Machine**

Product Description

Machine parameter

Size	2550*1650*1550mm
weight	1700kg
PCB size	Max:1200*500mm Min:100*100mm
No.of camera	2 sets of imported camera
Mounting height	<15mm
Optimum speed	45000CPH
Feeder station	28 PCS
Nozzles	12 PCS
X Y Z axis drive way	High-end magnetic linear motor and servo motor
Mounting mode	Group picking and separate placing, separat picking and separate placing

application

Multi-function machines are mainly used in a variety of products, such as bulbs, flexible light strips, lamp tubes, panel lights, display screens, etc., HT-E8S is a multi-functional high-speed machine, it mainly mounts are lamp tubes, flexible light strips, lenses, drivers, circuit boards, panel lights and so on.

Machine parts

Main feature

1. Mounting components: LED, capacitor, resistors, IC, shapes components etc.
2. Component: Min. size 0402 and Max. height 15 mm
3. Application: Power driver, electric board, lens, linear bulb, household appliance etc.

Company information

Our company ETON is the largest manufacturer of high speed pick and place machine. We start from 2011, around 8 years. In the market, around 80% of large LED factory are our client.

Our company has an industrial park equipped with advanced processing and manufacturing centers

We also have many exhibitions, such as the domestic Shanghai Munich exhibition, and foreign India Delhi exhibition, India Mumbai exhibition, Pakistan exhibition, Turkey exhibition, Thailand exhibition and so on.

Certification of Honor

Our company has obtained CCC, CE, SIRA certificates, and not only these, our company has successively won the National High-tech Enterprise, 2015 LED Technology Innovation Award, Industry Special Contribution Award and so on.

Our clients

We have exported to different countries, such as India, Egypt, Turkey, Brazil and so on. In India, such as RK, Surya, Skyquad are our customer, and in China such as FSL, ETI, KONKA, OPPL, MLS are our client.

Package description

The products exported by our company are all vacuum-packed and the outer packaging is wooden cases

Logistics transportation

In terms of transportation, we support three types of transportation by sea, land and air.

Remark

The delivery period is within four weeks after receiving the deposit

Term of payment: 30% depositing on the date of signing contract, 70% payment before delivery.

Quotation in valid: 30 days

About service information

If you buy our machines, we will send our engineers to your factory for installation and free training. If client is India, we have service in India, and have India engineer in Delhi and Mumbai. Can support quickly.

The warranty period of our machine is one year. If there is a problem with the machine during the warranty period, we can replace parts for free, except for feeders and nozzles.

The main difference between dedicated machine and multi-function machine

	Multi-functional machine	Dedicated machine
structure	Single arm	Double arm

mounting mode	Group picking and separate placing,separate picking and separate placing	Group to take and group to mount
X Y Z axis	The board feed direction is Y axis, and the head parallel movement direction is X axis, except for RT series	XY axis is opposite to multi-functional machine
Head spacing	≤22mm	<5mm
Feeder station spacing	18mm,(Not adjustable)	6.5mm,adjustable
		12.8mm,adjustable

FAQ

Q:Why your price is so high?

A:Because the quality, accuracy and performance of our machines are relatively good,different but better.

Q:How about your system?

A:The operating system is Windows 7. The software is developed independently. It supports Chinese and English operation interface.

Q:What is the maximum PCB size ?

A:It is 1200*500mm.
