

## 250000CPH 68 Heads SMT Pick Place Machine With Led Flexible Strip

### Our Product Introduction

#### Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC\CE\SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1 set
- Packaging Details: Wooden case
- Supply Ability: 50 pcs per month

#### Product Specification

- Warranty: One Year
- Quality: Top Quality
- Feeder Station: 68 PCS
- Heads: 68 PCS
- Feeding Way: Electric Feeder With Double Motor
- Dimension: 3100\*2300\*1550mm
- Highlight: **68 Heads SMT Pick Place Machine ,  
250000CPH SMT Pick Place Machine ,  
SIRA Led Flexible Strip Chip Mounter**

## Product Description

### 68 heads SMT pick and place machine highspeed automatic with led flexible strip

#### The feature of machine

1. Dual arm four module, 17 nozzles for each mounting part
2. Available for 5M, 50M or any length of flexible strip and Roll to Roll
3. Can produce 2-4 types materials at the same time, and the production capacity is not affected by the material ratio
4. Mounting speed reach 200000 CPH, calibration automatically, high precision, available for RGB
5. Components: LED3014/3020/3528/5050 and resistor, capacitor, bridge rectifiers

#### Main technical parameter

PCB length width	250mm*any length
PCB thickness	0.5-1.5mm
PCB clamping	Vacuum adsorption, cylinder splint, adjustable track width
Mounting mode	Group to take and group to mount
No. of camera	5 PCS
Mounting speed	200000-250000CPH
No. of feeder station	68 PCS
No. of nozzles	68 PCS
Feeding system	Electric feeder with double motor

#### Application

Our company's special machines are mainly used in linear products, such as flexible light strips and tubes. The machine HT-T9 is mainly produces flexible light strips of any length, but can only produce soft light strips, such as half a meter, 1 meter, 5 meters, 10 meters, 50 meters, 100 meters, and 500 meters.

#### About machine camera

camera	Function
Feeder station camera*2	Adjust the nozzle spacing by illuminating the center of the nozzle
Nozzles camera*2	Adjust the feeder spacing by illuminating the center scale line of the feeder
MARK camera*1	Make the PCB board placement program based on the MARK point

## About our company

Shenzhen ETON Automation Equipment Co., LTD. is a leading manufacturer of automatic high-speed pick and place machine focusing on High efficiency Low consumption. And we have our own industrial park, which can further standardize and streamline the production process.

- Company five level management policy: sincere business, focus on R&D, manufacturing intentions, considerate service, customer trust
- ETON mission: professional, excellent technology, sharing the results
- ETON goal: to create a national brand, build international Chinese enterprises
- ETON's purpose: to create value for customers, creating benefits for society
- ETON vision: determined to become the world's most competitive manufacturer and service provider of pick and place machine and high-end electronic testing equipment.

### About our exports

We exported machine to more than 20 countries.

### Company after-sales service

If you buy our machines, after receiving the goods, we will send our engineers to your factory for installation and free training. If client is India, you can provide faster service because we have an office in India.

The warranty period of our machine is one year. If there is a problem with the machine during the warranty period, we can replace parts for free.

### Payment Terms

The delivery period is within four weeks after receiving the deposit

Term of payment: 30% depositing on the date of signing contract, 70% payment before delivery.

Quotation in valid: 30 days

### FAQ:

#### Q: How is the training?

A: after buying our machine, we will provide you with free machine installation and free training

#### Q: why your price is so high?

A: cause our machine quality, accuracy and performance is better, different but better.

#### Q: how is the breakdown rate of machine?

A: our machine is very stable, the breakdown rate is less than 0.001.

#### Q: Does your machine have quality certificate?

A: Our machine have pass CE certificate, SIRA, ISO and have patent.

#### Q: Is it safe during the delivery?

A: All the machine is packed safely, by standard strong wooden carton with vacuum package.

#### Q: What is your transportation?

A: Sea transportation, land carriage and air transportation is OK.
