

## High Capacitor 3mm PCB Pick And Place Machine CCC

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC\CE\SIRA
- Model Number: HT-E8D-1200
- Minimum Order Quantity: 1 SET
- Packaging Details: wooden case
- Supply Ability: 50PCS/month

#### Product Specification

- Warrant: One Year
- Type: Double Module Pick And Place Machine
- Dimension: 3150\*2250\*1650mm
- Total Weight: 2500kg
- Heads: 24 PCS
- Feeder Station: 48 PCS
- Highlight: 3mm PCB Pick And Place Machine,  
24 Heads Pick And Place Machine,  
CCC High Capacitor Mounter Machine

## Product Description

### Hot-sales high quality pick and place machine high capacitor with good stable

#### Brand introduction

Shenzhen ETON Automatic Equipment Co.,LTD is a national high-tech enterprise and dual-soft enterprise dedicated to the research and development, production, sales and after-sales technology of SMT high-speed placement machines.

#### Introducing machine

1. This is multifunctional machine HT-E8D with double module,total 24 heads,each part 12 head,can produce 2 types of products at the same time.
2. The X axis is magnetic linear motor,Y axis and Z axis is servo motor,very good performance and high accuracy.
3. Its high precision,apply to LED chips,resistor,capacitor,IC,shaped components etc.
4. It is high speed machine,the optimum speed is 90000CPH.
5. Component:Min.size 0402 Max.height 15mm

#### Machine parameter

|               |              |   |
|---------------|--------------|---|
| Length        |              | 3150mm  |
| Width         |              | 2250mm  |
| Height        |              | 1650mm  |
| Total weight  |              | 2500kg  |
| PCB           | Length width | Max:1200*300mm<br>Min:100*100mm   |
|               | Thickness    | 0.5-5mm   |
|               | Clamping     | Adjustable pressure pneumatic   |
| Mounting mode |              | Group picking and separate placing,separate picking and separate placing. |

#### Feeding system of machine

|                |                      |                                   |
|----------------|----------------------|-----------------------------------|
| Feeding system | No.of feeder station | 48 PCS double module              |
|                | No.of nozzles        | 24 PCS double module              |
|                | Feeding way          | Electric feeder with double motor |

#### Mounted products

It's intelligent,can produce different types of LED light and electric board,such as tube,bulb,strip,panel,downdlight,streetlight,power drive.

#### Company Information

Our company ETON is the largest high-tech manufacturer in China,which start from 2011,have very good experience in manufacturing SMT machines.

we have our own Industrial Park,which equipped with an advance processing and manufacturing center.

### Honour Client

In the market, around 80% of large LED factory are our client.

### Certification of Honor

Our company has obtained CCC, CE, SIRA certificates, and not only these, our company has successively won the National High-tech Enterprise, 2015 LED Technology Innovation Award, Industry Special Contribution Award and so on.

### Payment, service and delivery

- \*The payment method we support is T/T
- \*The delivery is within 30 days after receiving the deposit!
- \*There are 4 points for after-sales service, please see the picture below!

### Service

1. Maintenance period :one year
2. Free installation and training
3. Visit clients regularly and gather information
4. Provide latest information about technology and equipment

### Payment

We accept  
TT payment

### Delivery

Within 30 days after  
receiving the deposit!

### FAQ:

**Q:It it hard to use these machine?**

**A:**No,not at all.Usually 3 to 5 days is enough to learn operate the machine.

**Q:English version for these machines?**

A:Yes,English and Chinese interface are both available.

**Q:How is the training?**

A:After buying our machine,we will send our engineer to your factory to install machine and training freely.

**Q:What is the fastest speed of your machine?**

A:The fastest speed can reach 25W CPH
