

Double Motor Pick And Place Machine 5mm PCB With Wide Practicality

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: HT-E8S-1200
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum packaging, packaging using wooden boxes.
- Delivery Time: 5-8 work days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Weight: 1700 Kg
- PCB Size: Max:1200*500 Mm Min:100*100 Mm
- PCB Clamping: Adjustable Pressure Pneumatic
- Mounting Speed: 45000CPH
- No. Of Nozzles: 12 PCS Single Module
- No. Of Feeders Station: 28 PCS Single Module
- Highlight: **Double Motor Pick And Place Machine, Wide Practicality Pick And Place Machine, 5mm PCB Smt Mounter Machine**

Product Description

Multi-functional pick and place machine with wide practicability, high quality and good performance

Product

Mounting components: LED, capacitors, resistors, IC, shaped components, etc.

Application: power driver, electric board, lens, linear bulb, household application etc.

Technical parameter

HT-E8S-1200 pick and place machine		
Dimension	Length* Width* Height	2550mm*1650mm*1550mm
	Total weight	1700kg
PCB	PCB Size	Max:1200*500mm Min:100*100mm
	PCB Thickness	0.5-5mm
	PCB Clamping	Adjustable pressure pneumatic
	Mounting mode	Group picking and separate placing, separate picking and separate placing
O.S.	System	Windows 7
	Software	R&D independently
	Display	Touch screen monitor
Vision System	No. of camera	2 sets of imported camera
		Vision for the flight identification, mark correction
	Mounting precision	±0.04mm
	Mounting speed	45000CPH
	Components	LED, capacitors, resistors, IC, shaped components, etc.
	No. of feeders station	28PCS single module
	No. of nozzles	12PCS single module
	XYZ Axis drive way	High-end magnetic linear motor + servo motor
	Feeding way	Electric feeder with double motor

Features

Low failure rate	The feeding method adopts dual-motor electronic feeder, independent control is more precise.
intelligent	Automatic recognition of compensation optimization, and non-stop refueling function.
Wide application	Mounting technology is group picking and splitting, splitting and splitting, which is suitable for the mounting of a variety of products, such as: flexible light strips, panel lights, lenses, display screens, bulbs, tubes, etc.

Details

Company information

Since its establishment in 2011 with Shenzhen, China, ETON is a technology enterprise dedicated to the development, production and sales of SMT high-speed placement machines. In 2020, ETON Jiangxi Industrial Park will be completed, equipped with an advanced processing and manufacturing center, and the production process will be further standardized and streamlined. The products are sold to more than 20 countries and regions including South Korea, India, Vietnam, Turkey, Egypt, Tunisia, etc.

Certificate

Exhibition

In order to promote the company's products efficiently, increase visibility, recognize and understand related industry knowledge, and obtain certain customer resources, our company will participate in a large number of domestic and foreign exhibitions every year, such as Guangzhou Guangya Exhibition, Shanghai Munich Exhibition, Delhi Exhibition in India, and Turkey Exhibition. , Pakistan Exhibition, etc.

Delivery

Package

Payment

T/T

Terms of payment: 30% depositing on the date of signing contract, 70% payment before delivery.

Services

Free professional advice: For the production of SMT machine.

Free technical support: 7*24 hours online technical service.

Free installation and training: We have established offices overseas and can arrange engineers to go directly to the factory for free installation and training.

Free upgrade software: The machine software is developed by our company, so we provide life-long free upgrade software for customers who purchase the machine.

FAQ

1. Do you have any service offices overseas?

We have service office in India, and have India engineer in Delhi and Mumbai, can support you.

2. What do you do if something goes wrong with my machine?

First of all, we will let the engineer contact you online to solve, if the line can not solve, we will arrange for the engineer to your factory to solve.

3. Is your software interface in English?

English interface and Chinese interface are both available.

4. How is the training?

After purchasing our machine, first we will send you the installation and operation video, and then we will arrange engineers to go to your factory for installation and training, or you can arrange your engineers to study and operate in our factory.
