

0402 Components 90000CPH Pick And Place Machine SIRA For Led Lighting

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC\CE\SIRA
- Model Number: HT-E8D-1200
- Minimum Order Quantity: 1 SET
- Price: FOB USD 46000~86000/sets
- Packaging Details: Wooden case
- Delivery Time: 15~30 days
- Payment Terms: L/C, T/T
- Supply Ability: 50 pcs per month

Product Specification

- Quality: 100% Test
- Warranty: 1 Year
- Types: Dual Module Multi-functional Mounter
- Total Weight: 2500kg
- Mounting Speed: 90000CPH
- Nozzles: 24 PCS
- Highlight: 0402 Components Pick And Place Machine, 90000CPH Pick And Place Machine, SIRA Led Lighting Making Machine

Product Description

ETON major product

Multifunctional pick and place machine
Automatic High-speed pick and place machine
Automatic glue dispenser machine
Lens mounter

Product description

Improved Productivity

► The pasting speed is 90000 CPH, 48 feeders station and 24 nozzles. And It can produce two different products at the same time, which greatly improves the efficiency.

Improved Usability

► Minimum placement of 0402 components, maximum placement of 15mm
► Mounting components about LED,capacitor,resistor,shaped components,etc

Product presentation

► High Precision: four sets cameras are equipped with visual alignment, mark correction technology and optical positioning technology to accurately identify the position of PCB board and quickly and accurately mount components.
► High speed: group picking and separate placing,separate picking and separate placing,the capacity is 90000 CPH,48 PCS feeder stations double module,24 nozzles double module
► Strong durability: The quality of hardware equipment is guaranteed by certificate, the quality of dual motor electronic flying and guide rail and screw is guaranteed, which can support 24-hour operation.
Simple operation: Windows 7 system can be used to switch the Chinese-English interface, usually 3 to 5 days training of operation is enough.

Technical parameter		
Length		3150mm
Width		2250mm
Height		1650mm
Total weight		2500kg
PCB	Length width	Max:1200*300mm Min:100*100mm
	Thickness	0.5-5mm
	Clamping	Adjustable pressure pneumatic
Mounting mode		Group picking and separate placing,separate picking and separate placing.
Mounting speed		90000CPH
Mounting precision		±0.04
Components Space		0.2mm
Power		380AC 50Hz
Feeder station		48 PCS
Nozzles		24 PCS
No.of camera	4 sets	
	Vision for the flight identification,Mark correction	

Feature of machine E8D-1200

Dual system,dual module multifunctional mounter.

To produce 2 different products at the same time

Mounting components:LED,capacitor,resistor,IC,shaped component,etc.

Application: power drive,electric board,lens,linear bulb,household appliance etc.

Excellent Remarkable

- ⇒Dual system,dual modular
- ⇒To produce two different products at the same time
- ⇒High precision $\pm 0.04\text{mm}$
- ⇒Easy operate:English interface option

Main Product Information

- Feeder Station:48 PCS
- Nozzles:24 PCS
- Mounting Speed:90000CPH
- Drive way:High-end magnetic linear motor+servo motor

Finished Product

Company Information

- *Our company is a leading manufacturer of automatic high speed pick and place machine focusing on High efficiency Low consumption,and is a famous high-tech automatic manufacturer in China.
- *We have our own industrial park,there are production center and R&D center and quality inspection centre to guarantee the machine quality.
- *Also,we have exported machine to different countries,such as India,Egypt,Korea,Turkey,Brazil etc.and enjoy good reputation on the market.
- *Our company will go to many exhibitions, such as the domestic Shanghai Munich exhibition, and foreign India Delhi exhibition, India Mumbai exhibition, Pakistan exhibition, Turkey exhibition, Thailand exhibition and so on.

Payment

The machine is relatively large,we suggest pay it by T/T,safe and convenient.

Package&shipping

In general,each machine is firstly covered with protective,then added vacuum packaging and finally put in carton.
As for shipment,we have flexible delivery: Ocean Delivery,Air Delivery and land Delivery.

FAQ:

What are the main LED products o our machines for?

There are different machines in our company and different machines apply to different LED lights. The main products we can apply:bulb tube

strip lamp panel. Down light,streetlight,ceiling light.wall washer light and so on.

Do our machines only for LED lights?

No,our machines apply to not only LED light but also other products.

What components do our machines apply to?

Our machines can patch LED 3014/30202/2835/5050/5630/5730 etc.. capacitors, resistors,IC.shaped components and so on.

Why do we adopt the smart electronic feeders?

Our machines adopt the smart electronic feeders which are more stable.universal and intelligent. The feeding speed of electronic feeder is faster than the traditional pneumatic feeder.It can avoid the cost and drop of materials effectively.
