

Adjustable Pneumatic Pick And Place Machine 90000CPH SMT Lamp Bead

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: HT-E8D-600
- Minimum Order Quantity: 1 set
- Packaging Details: Standard vacuum wooden box packaging
- Delivery Time: 5-8 work days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- No. Of Nozzles: 24PCS
- PCB Clamping: Adjustable Pressure Pneumatic
- Total Weight: 2200kg
- Length* Width* Height: 1950mm*2250mm*1650mm
- Camera Features: Vision For The Flight Identification, Mark Correction
- Pcb Thickness: 0.5-5mm
- Highlight: **Adjustable Pneumatic Pick And Place Machine, Pick And Place Machine 90000CPH, SMT Lamp Bead Chip Mounting Machine**

Product Description

High-quality direct sales industrial control host SMT lamp bead pick and place machine

Features

Control system: ball screw, servo motor and magnetic levitation motor.
 24 placement heads with dual modules can pick up and calibrate components at one time.
 Mechanical calibration function to ensure placement accuracy
 Video tutorials make it easier to operate the machine.
 Provide lifetime free software upgrade service.

Product description

The dual-system dual-module multi-function placement machine can produce two different products at the same time.
 Mounting parts: with mounting lamp beads, lenses, capacitors, resistors, ICs and various special shaped components.
 Products: driver, 1.2m flexible light strip, lens, bulb, panel light, small accessories, etc.

Technical parameter

HT-E8D-600 pick and place machine		
Dimension	Length* Width* Height	1950mm*2250mm*1650mm
	Total weight	2200kg
PCB	PCB Size	Max:600*350mm Min:100*100mm
	PCB Thickness	0.5-5mm
	PCB Clamping	Adjustable pressure pneumatic
	Mounting mode	Group picking and separate placing, separate picking and separate placing
O.S.	System	Windows 7
	Software	R&D independently
	Display	Touch screen monitor
Vision System	No. of camera	4 sets
		Vision for the flight identification, mark correction
	Mounting precision	±0.04mm
	Mounting speed	90000CPH
	Components	LED, capacitors, resistors, IC, shaped components, etc.
	No. of feeders station	48PCS double module
	No. of nozzles	24PCS double module
	XYZ Axis drive way	High-end magnetic linear motor + servo motor
	Feeding way	Electric feeder with double motor

Company information

Shenzhen ETON Automation Equipment Co., Ltd. was established in 2011. It is a national high-tech enterprise dedicated to the research and development, production, sales and after-sales service of SMT high-speed placement machines. The company has always been committed to providing customers with "professional, efficient, and low-consumption" SMT automatic placement machines.

Sheet metal workshop

Delivery

Service

Provide professional SMT production line
Free installation and training at the factory
Set up offices overseas and have local engineers to facilitate consultation or handling of problems
Free lifetime upgrades of machine software can be provided
24 hours free online technical service

FAQ

1. Do you have any customers in India? How many machines are there in India?
Yes, we have many big clients in India, such as RK, SURYA, FIEM, CALCOM, POLYCRB, etc. We have sold over a hundred machines to India and we go to the exhibition every year.
2. Can I visit the production site of your machines in India?
I have to ask my clients. After all, this is our customer's factory, we can't make decisions for my clients. I think that you wouldn't want your competitors to visit your manufacturing site, please understand.
3. Does the price include the spare parts (feeder and nozzle)?
Different clients have different requirements on spare parts, it is not fair to the clients to add an equivalent price for spare parts. So we don't add the spare parts cost on price, and price is only for machine.
4. What is your machines quality?
We have our own industrial park. There are production centre and R&D centre and quality inspection centre to guarantee the machines quality.
