Product Description

High Stable SMT Mounting Machine PCB Solder Paste Stencil Printer

Stencil Printer Machine features

Adopt high-precision linear guide and ultra-quiet motor, Squeegee printing is more stable.

Use imported electrical raw materials, Stable and reliable performance.

Suspended scraper design can automatically adapt to uneven surfaces.

Input total power supply voltage: single-phase 220V 50/60Hz, total power 100W.

The printing base can be lifted up by 45° and can be fixed, which is convenient for the loading and unloading of the scraper and the cleaning of the stencil.

The Printing Block can be moved forward and fixed, which is convenient to match the position of the stencil mesh pattern to obtain better printing results.

The mesh support arm can be adjusted left and right separately, suitable for 550 650mm stencil.
