

## 45000CPH Automatic Light Bulb Making Machine In Smt Production Line

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: HT-E8S-1200
- Minimum Order Quantity: 1 set
- Packaging Details: Vacuum wooden box packaging
- Delivery Time: 5-8 work days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

#### Product Specification

- Length\* Width\* Height: 2550mm\*1650mm\*1550mm
- PCB Size: Max:1200\*500mm Min:100\*100mm
- PCB Thickness: 0.5-5mm
- PCB Clamping: Adjustable Pressure Pneumatic
- Display: Touch Screen Monitor
- No. Of Camera: 2 Sets Of Imported Camera
- Mounting Speed: 45000CPH
- No. Of Head: 12PCS Single Module
- Highlight: **45000CPH Light Bulb Making Machine,**  
**45000CPH auto bulb making machine,**  
**Touch screen Light Bulb Making Machine**

## Product Description

### 45000CPH Automatic Light Bulb Making Machine In Smt Production Line

#### Product description

Mounting components: LED, capacitors, resistors, IC, shaped components, etc.

Application: power driver, electric board, lens, linear bulb, household application etc.

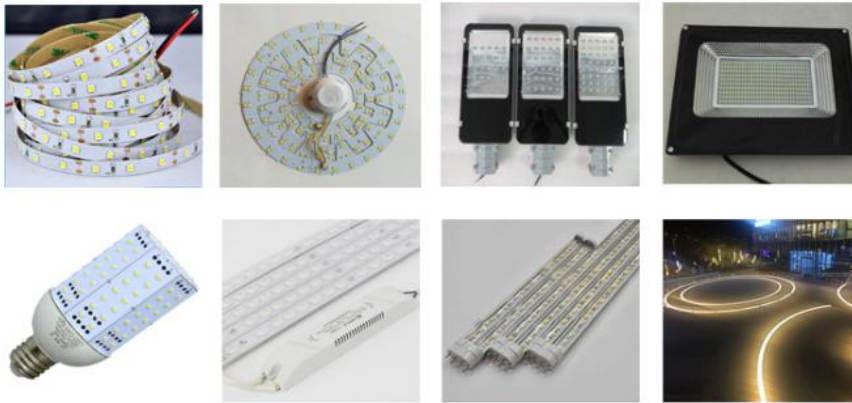

#### Technical parameter

Length* Width* Height	2550mm*1650mm*1550mm
Total weight	1700kg
PCB Size	Max:1200*500mm Min:100*100mm
PCB Thickness	0.5-5mm
PCB Clamping	Adjustable pressure pneumatic
Display	Touch screen monitor
No. of camera	2 sets of imported camera
	Vision for the flight identification, mark correction
Mounting speed	45000CPH
Components	LED, capacitors, resistors, IC, shaped components, etc.
No. of feeders station	28PCS single module
No. of nozzles	12PCS single module
XYZ Axis drive way	High-end magnetic linear motor + servo motor
Feeding way	Electric feeder with double motor

#### The advantage of machine

Low failure rate	The feeding method adopts dual-motor electronic feeder, independent control is more precise.
intelligent	Automatic recognition of compensation optimization, and non-stop refueling function.
Wide application	Mounting technology is group picking and splitting, splitting and splitting, which is suitable for the mounting of a variety of products, such as: flexible light strips, panel lights, lenses, display screens, bulbs, tubes, etc.

## Application

### 1. Electronic industry

Electronic products are our standard products in the 21st century. Applications for mobile phones and notebooks can be seen everywhere, while the placement machine is responsible for the placement of chips on the motherboard. Due to the large output of electronic products and the precision production, they can only be placed through placement. The machine performs system placement.

### 2. LED industry

Due to the large demand for LED products, such as desk lamps, street lamps, ceiling lamps, large screens, small screens, and LCD screens, all need to use equipment for mounting.

## FAQ

### 1. Do you have any service offices overseas?

We have service office in India, and have India engineer in Delhi and Mumbai, can support you.

### 2. What do you do if something goes wrong with my machine?

First of all, we will let the engineer contact you online to solve, if the line can not solve, we will arrange for the engineer to your factory to solve.

### 3. Is your software interface in English?

English interface and Chinese interface are both available.

### 4. How is the training?

After purchasing our machine, first we will send you the installation and operation video, and then we will arrange engineers to go to your factory for installation and training, or you can arrange your engineers to study and operate in our factory.
