

led strip light vision camera four module 17 nozzles high speed pick and place machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1 Set
- Packaging Details: wooden box with vacuum package
- Delivery Time: 30 days after deposit
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- System: Window 7
- Software: R&D Independently
- PCB Length Width: 250mm*any Length
- Mounting Mode: Group To Pick And Group To Mount
- No.of Camera: 5PCS Digital Camera)
- Mounting Speed: 200000-250000CPH
- No.of Feeders Station: 68PCS
- No.of Head: 68PCS
- Conveyor Transmission: MAX Length: 1000mm
- XYZ Axis Drive Way: High-end Magnetic Linear Motor + Servo Motor

Product Description

Four module 17 nozzles high precision and capacity smt mouter

The purpose of the placement machine is to achieve high-speed and high-precision placement and placement of components. It is the most important and most complex equipment in the entire SMT automatic production. It can be 100 times more accurate than manual placement.

Our Company

ETON has invented the fastest automatic pick and place machine with speed **250000**CPH. Since its establishment in **2011**, ETON has been committed to the development and production of SMT placement machines and peripheral equipment in **2007**. Rich experience in SMT Industry Line. ETON set up more than **10** years, we are leading manufacturer of SMT machine in China. Strong production capacity, ETON have more than **50000** square meter Industrial park in Jiangxi Province, machine capacity more than **50** units/month.

Our Product Introduction

ETON

ETON professional SMT manufacturer

China Top 1.

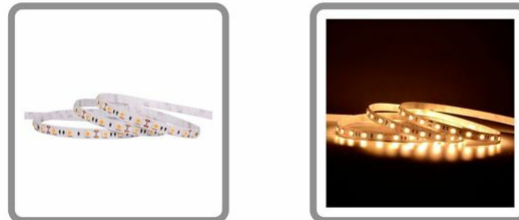

Full SMT solution

Fatest machine 250000CPH

Application

SMT Machine mounter apply to **led filed**, highspeed mounter T9 suitable for any length led strip light. At present, **LED soft Light strips** are not only used in the field of interior decoration lighting, but also in **urban** lighting, **landscape** lighting, **commercial** lighting and a Some special lighting collars are only used in the field of **interior decoration lighting**, but also in urban lighting, landscape lighting, and commercial lighting. And some special lighting fields are very popular.

LED strip light

Production Introduction

HT-T9

250000CPH

68PCS Nozzle head

Top brand of in China

Features

Mechanical part: Most of mechanical part are manufactured by ETON, with controllable quality and strong manufacturing capabilities.

Software: Independent research and development by ETON, free upgrade whole lifetime, saving costs.

Good and professional service. Provide engineer Door-to-door service, support video online training, video training share, free replaced machine core part professional SMT line solution.

Supported with an excellent RD team ETON has strong ability to OEM and ODM for customers, custom unique design for you with the best cost

Technical Parameter

Model	HT-T9
Dimension(mm)	3100*2300*1550
PCB length width	250mm*any length
PCB clamping	Vacuum absorption, cylinder splint, adjustable track width
Software	R&D independently
Camera	5PCS vision alignment, mark correction
Mounting speed	200000-250000CPH

Relation Machine & SMT line

Automatic stencil printer machine with pick and place machine, loader, conveyor, unloader, reflow oven to be one automatic line. Automatic line save much labor cost compared with the semiautomatic line, also with higher printing precision could produce high quality electrical products. Here are the automatic SMT line solution layout:

FAQ

Why should you buy from us not from other suppliers?

We are high-tech professional manufacturer of SMT machine with more than **10 years** with good quality and reputation. We have rich experience in helping client to start new factory and new line. "Professional, high-effective, cost-saving" are our advantages.

Are you a trade company or a manufacturer?

We are an professional manufacturer specialized in Screen Printer, SMT Machine, Pick and Place Machine, Reflow Oven, SMT Production line and other SMT Products. Also we have **52000** square meter Industrial Park.

What is your payment terms? What about the trade term?

100% payment before delivery or 50% deposit in advance and the rest before shipment. T/T is OK. You can choose **FOB Shenzhen**.

The products you are advertising are in stock?

The delivery date is about **20 days** upon the full payment. Some times we have some in stock for ship, before shipping we'll do some machine test for clients.

What machine can I buy from you?

Multi-function **placement machine**, high-speed placement machine, dispensing machine, loading machine, printing machine, reflow soldering, etc.
