

Led bulb making machine smt line

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: RT-1

Product Specification

- Machine Name: Led Bulb Making Machine/production Line
- Machine Capacity: 40000 Chip Per Hour
- Machine Weight: 2500 Kg
- Machine Shipping: 25 Working Days

Product Description

Led bulb making machine smt line

Electrical components included smd component, dip component, and some shaped components. For smd (surface mounted devices), it is using smt technology for assembly. For Led bulb, there are different part to be one. Like the base, the lighting board, the driver board, the house, the pin, etc. The most important part for the bulb is the lighting board and the driver board. With the market development, here are Normal led bulb, linear bulb, dob bulb, different lighting and driver combined to be a newest led bulb.

In the whole world market, led bulb as the green lighting, it is most popular and most economy with big market.

ETON as the smt machine manufacturer in China. Our machine is widely apply to these lighting. Specially, we have the proper smt production line design for that with economy price.

Newest Led bulb mounting machine

Led bulb mounting machine is mounting led chip/ resistor/ capacitor/ IC/ Diode/ Transformer/ Terminal/etc on the pcb (print circuit board). We highly recommend our model RT-1 for that. Here are the main reason

RT-1 is 10 heads mounting machine, and intelligent for mounting all kinds of smd component.

RT-1 Compatible with different types of feeders, like 8mm feeder/12mm feeder/16mm feeder/ 24mm feeder/ vibrator

The 10 heads of RT-1 all are independently control by servo motor, support group picking and separately placing or separately picking and separately placing.

This model is very economy with high capacity(40000 cph) . For led lighting, the gross profit is small, only big capacity could support cheaper lighting and got large market share.

LED Bulb Making Machine/A bulb/T bulb/SMT Machine for mounting LED/resistor capacitor/IC/bridge/shaped components/etc

SMT Line for led bulb

SMT line for led bulb, we recommend: Semiautomatic stencil printer machine, single rail conveyor machine, automatic pick and place machine, 8 zones reflow oven machine, etc
