

Single module LED making machine multifunctional pick and place machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: RT-1
- Minimum Order Quantity: 1 sets
- Packaging Details: vacuum package, wooden cases
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets/month

Product Specification

- Name: SMT Machine, Single Module Magnetic Linear Motor Multifunctional Pick And Place Machine
- Type: SMT Machine Related Products, Automatic
- Usage: Circuit Board Assembly, SMT Mounting Machine, SMD, LED
- Dimension: 1200*1930*1500mm
- Weight: 2000kg
- Speed: 40000cph
- Feeders: 32pcs
- Warranty: 1 Year

Product Description

Single module LED making machine multifunctional pick and place machine

Products Description:

Magnetic linear motor is adopted to make the production fast, efficient and accurate

Drag chain imported from Germany, IGUS brand

With camera system, automatic identification and mark correction to ensure accurate and efficient mounting

The machine software is independently developed by ETON

Products Features:

Single module

PCB length width: max 450*350mm, min 80*80mm

No. of feeder station: 32 PCS

No. of nozzles: 10 PCS

Mounting speed: 40000 CPH

Mounting components: LED chip, capacitor, resistor, IC, shaped components, etc.

Machine Parameter

Length*Width*Height	1200*1930*1500mm
Total Weight	2000kg
PCB Length width	max 450*350mm min 80*80mm
PCB Thickness	1-6mm (if <0.6mm need jig)
No. of camera	2 pcs
	Vision alignment, Mark correction
Power	AC 380V
Power Consumption	4kw

Application

Suitable for mounting products such as down light, street light, panel light, bulbs, Tubes, flexible light strip, etc.

Company Introduction

ShenZhen ETON is a manufacturing and process solution provider focusing on R&D, production, sale and service of SMT high-speed pick and place machines and SMT peripheral automation equipment.

It has successfully developed a variety of cost-effective SMT high-speed universal placement machines, which are widely used in lighting, LED display, electronics field, power drive, home appliances, new energy and other industries.

Transportation and Package

1. Our machine are packed in vacuum wooden cases, in order to prevent chemical reaction with some components during transportation, so as to better protect the machine itself.
2. The salesman tracks the delivery process and records the whole loading process to ensure no error in loading.
3. After loading, when the goods arrive at the port, we will cooperate with the forwarder to do customs clearance procedures.

Service

1. Free Professional advice: For the production of smt machine, production line, factory.
2. Free upgrade software: The machine software is developed by our company, so we provide life-long free upgrade for customers.
3. Free installation and training: We have offices and local engineers in overseas.
4. Maintenance period: one year
5. Visit customers regularly and gather information

FAQ

Q: How long does it take to ship after placing an order?
We usually ship as soon as possible within 30 days

Q: Do you have offices and local engineers in overseas?
Yes, we have established offices and local engineers in Egypt, Turkey and India, etc

Q: If there is a problem with the machine, can it be repaired?
Of course, the machine failure rate is 0.001, and in addition to the warranty period, we also provide you with free maintenance 1-2 times a year

Q: Is hard to use these machines?

A: No, not at all. All our machine are automatic, you just type in the program and it will work. The operation is relatively simple and I believed that certainly learn in two days.

Q: Is the software for these machine in English?

A: Yes. Our software is independently developed, there are two version in English and Chinese.
