Product Specification

Condition:	New
Warranty:	1 Year
• Model:	HT-E8D-1200
• Dimension:	3150 Mm* 2250 Mm* 1650 Mm
 Pcb Thickness: 	0.5-5 Mm
 Mounting Speed: 	90000 CPH
• Feeders:	48 PCS
 Mounting Precision: 	±0.04mm Precision
 Mounting Mode: 	Group Picking And Separately Placing, Separately Picking And Separately Placing
 Highlight: 	Dual System SMT Mounting Machine,

Dual System SMT Mounting Machine, eparately Placing SMT Mounting Machine, 0.04mm Precision Pick And Place Machine

Dual system to produce two different products at the same time with 90000 capacity pick and place machine

Product description

E8D-1200 multifunctional pick and place machine taking the mounting mode of group picking and separately placing, separately picking and separately placing, with 24 PCS of head capacity reaches 90000 CPH.

Features:

Dual system, dual module multifunctional mounter to produce two different products at the same time.

Mounting components:LED chip, capacitors, resistors, lens, IC, shaped components, etc.

Component: Min. Size 0402, Max. Height 15mm.

Application: Power driver, electric board, lens, DOB bulb, linear bulb, household appliance etc.

Exclusive Patented Technology:

Electronic feeder feeding system.

Vision alignment flight identification, Mark correction.

Non- stop material re-loading function.

Auto-optimization after coordinates generated, etc.

Machine parameter

Model	HT-E8D-1200
Dimension	3150mm*2250mm*1650mm
Total weight	2500kg
PCB length width	Max:1200*300mm
	Min:100*100mm
PCB thickness	0.5-5mm
PCB clamping	Adjustable pressure pneumatic
Mounting mode	Group picking and separately placing, Separately picking and
	separately placing
Mounting precision	±0.04mm
Mounting speed	90000CPH
No. of feeders station	48PCS single module
No. of head	24 PCS single module

Company profile

SHENZHEN ETON AUTOMATION EQUIPMENT CO., LTD

ETON was founded in 2011, is a company that keen on manufacturing and process solution provider focusing on R&D, production, sales and service of SMT high-speed pick and place and SMT peripheral automation equipment.

Experiences:

Focusing on SMT pick and place machine more than 10 years

The products exported to more than 20 countries and regions, including South Korea, India, Vietnam, Tunisia, Egypt, Turkey, Russia, Brazil etc. ETON obtained 9 invention patents, 112 practical patents, 12 software copyrights of intellectual property technologies, to be a leading manufacturer of SMT trade.

Packing and transmission

convey: by sea, by air and land transportation

Services

SERVICES

1 Provide a whole Production line

2 In the warranty period, any problems of the machine, or the replacement of accessories is free to solve.

③ After the warranty period, every year we will arrange engineer to check or online operating the machine 1-2 times freely

(4) Enjoy a free up grade of the machine

FAQ

Q1. What is you payment terms?

A1. We usually use T/T as our payments term, that you can pay 30% down payment in advance, and pay the balance before the shipment.

Q2. If I need a perfect line of the machine can you supply?

A2. Yes, for the requirements of a whole line for production, we have professional equipment to make up for a perfect production line for your products, on account of we have a 50000 square meters of industrial park and excellent R&D staff, which can produce 50 sets of machine per month.

Q3. Whether have a free installment and training of operating the machine?

A3. Yes, if you buy our products that you can enjoy a free installment and we will arrange our engineer to take a training for you as for installation, commissioning and maintenance of the machine.

Q4. How was your services?

A4. We ensure our clients to enjoy an optimal experience of the service of communication and relevant needs of the machine for installation, maintenance and free up- grade.

Q5. How about the date of the delivery?

A5. The delivery day is about 20 days after the payment off.
