

Light driver board smd smt mounter machine

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: RT-2S

Product Specification

- Machine Name: Mounter/pick And Place Machine/smt Mounter
- Model: RT-2S
- Machine Mounting Speed: 74000 CPH
- Machine Max Pcb Size: 450*300 Mm

for more products please visit us on smtmountingmachine.com

Product Description

Light driver board SMD SMT mounter machine

SMD Components SMT Mounting machine

For Light driver here usually need mounting electrical components: Resistor, Capacitor, IC, Diode, Triode, Bridge Rectifiers, Transformer, Terminal, etc.

SMD Mounting machine could be used to mounting all kinds of different pcb and different component sizes product, like the Led bulb, LED Tube, LED Display, LED Panel, LED Strip Light, LED Bar, LED Downlight , LED street light. Also widely to all kinds of electrical product driver board.

The features of SMT Mounter

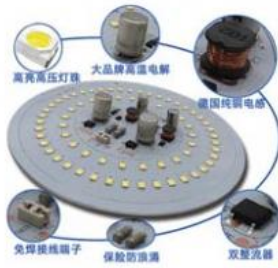

RT-2S as our newest module---SMT Pick and place machine, there are five features:

1. The X Y Axis using high-end magnetic linear motor, high precision, longer life
2. Higher precision with good quality vision camera, suitable for mini components mounting
3. Dual module, could producing two products at the same time.
4. Auto-optimization after coordinates generated, easy for operate.
5. Save much cost than buy 2 single module pick and place machine

The main parameter of mounter

Model	RT-2S
Total Weight	2500 KG
Max PCB size	450*300 mm
PCB Thickness	0.1-6 mm
Mounting height	No more than 15mm(Height customized)
Mounting speed	74000 CPH
Components	LED Chip, Resistor, Capacitor, IC , Shaped components, etc
Power consumption	6 KW

Newest Model: RT-2
Two mounting heads
80000 CPH

RFQ

1. Do you supply whole SMT line for us ? or just supply pick and place machine ?

A: We could supply whole SMT Line, mainly included: Stencil printer machine, pick and place machine, reflow oven machine, loader machine, conveyor machine, etc

2. What is this machine application ?

A: RT-2S as our high precision mounter, it is intelligent, suitable for all kinds of led lighting and electrical board.

3. How many heads mounter you could supply ?

A: ETON as the R&D company, we own our factory and professional technology team, reach more than 10 types mounter, have middle speed, high speed, super highspeed. From the head number classification, mainly have 10 heads, 12 heads, 20 heads, 24 heads, 34 heads, 68 heads. For more details share, pls contact us as fellow number!
