

LED Bulb SMT Pick and Place Machine with 10 Heads 25000CPH Speed

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: Eton
- Certification: CE CCC ISO
- Model Number: RT-1
- Minimum Order Quantity: 1
- Price: EXW USD38000
- Packaging Details: WOODEN BOX PACKAGE
- Delivery Time: 30 WORK DAYS
- Payment Terms: T/T, L/C
- Supply Ability: 50 SETS PER MONTHS

Product Specification

- Length: 1200MM
- Width: 1930MM
- Height: 1500MM
- Weight: 2000KG
- Power: 380AC 50Hz
- Power Consumption: 4KW
- Heads: 10
- Feeder Stations: 42

Product Description

Automatic LED DOB Bulb Pick and Place Machine LED Production Line

Advantages of RT-1 LED Pick and Place Machine

1: High precision high stability:

High-end magnetic linear motor with Vision alignment flight identifications, Mark correction.

2: Wide range application:

Suitable for small PCB products, Such as LED bulb. LED linear bulb, LED DOB bulb, LED street light, LED downlight, LED Driver and small home appliance electronic boards, etc.

3: Wide range of mountable components:

Can mount minimum size 0402 components. And also can mount less than 22MM high components. Including LED chips, resistors, capacitors, IC, shaped components, inductance, etc.

4: The leader of multi-functional medium speed machine

The maximum actual speed for LED lightings can reach 25000CPH

5: Good performance model with very economic price

Multi-functional with actual 25000CPH speed, can do 0402 to 22mm height components. A very competitive model. But only cost USD 35000.

6: Long time using life and good performance

Advanced processing and manufacturing center, strict quality control, and standardize production, streamline production processes make our machines has high quality standard. Own design and produce software and feeders make the machines' stability and long-life and good performance.

7: Update the software whole life free

Matched ETON own software, can provide software update freely whole life time

The Main Parameters of RT-1

Dimension	L*W*H 1200MM*1930MM*1500MM
Machine Weight	2000kg
Mounting Heads	10 Heads
No. of Feeder Stations	42 Stations
Components	LED, capacitors, resistors, shaped components, IC, etc.
Mounting Speed	40000CPH
Components Size	Max:18MM Min:0402
Power	380V 50Hz
X.Y Axis Driving	High-end magnetic Linear motor

Company Introduction

1, 50000 square meters industrial park ensure the brand effect and present company strength.

2, Own manufacturing center, equipped with an advanced processing and manufacturing center, strict quality control, and standardize production, streamline production processes make our machines has high quality standard and strong supply capacity.

3, Advanced in technology and innovation. Has 9 invention patents, 12 software copyrights and 112 practical patents.

4, The biggest manufacturer for LED SMT machines in China, which has occurred 85% market in China and has exported our machines to India, Vietnam, Korea, Japan, Turkey, Tunisia, Egypt etc more than 20 countries.

5, Has own professional R&D team, has Indian engineer, Indian office, Turkey engineer, Egypt engineer, etc. Can provide support promptly

6, Independent research and development. Own R&D team make the software and machines has best program. And can provide the whole life free update on software.

7, Own design and produce feeders make the machines' stability and long-life feeding and good performance.

8, More than 10 years LED lighting field experiences sharing, provide the most suitable SMT program to every client
