

## Bulb and tube led making machine production line

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE
- Model Number: HT-E8S-1200

#### Product Specification

- Machine Name: Pick And Place Machine/led Lighting Production Line
- Machine Capacity: 45000 Chip Per Hour
- Machine Mounting Heads: 12 Pcs
- Feeder Types: 8mm/12mm/16mm/24mm
- Machine Power Supply: 4 KW
- Max PCB Size: 1200\*500 Mm

## Product Description

### Economy LED Tube Bulb Panel Lens Mounting Making machine

#### Industry of LED Lighting

For many of led factory, especially the new manufacturer, they are prefer to purchase the making machine which suitable for many kind of led lighting, one SMT line widely apply to different kind of led lighting, like the Bulb, Tube, Lens, Panel, Street light, etc.

How ever for most of SMT mounting machine in the world, there are few module could suitable for both big PCB and small PCB Here is the special module and intelligent for all these lighting and driver board. ETON HT-E8S-1200 is the single module of Pick and place machine. It is applied to LED Bulb, LED Panel, LED Tube, LED Downlight, LED Ceiling light, ETC.

#### The main features of HT-E8S-1200

It is multifunctional , suitable for mounting all kinds of SMD components, such as the LED Chip, Resistor, Capacitor, IC, shaped components, Transformer, etc.

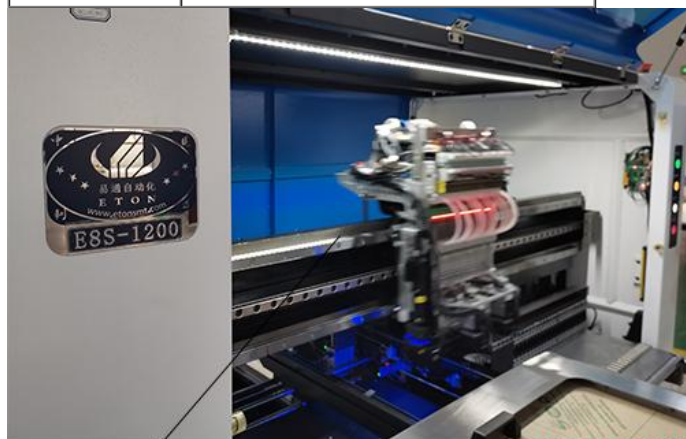

It is suitable for max PCB size is 1200\*500mm, Also could customized for 1500mm length if client need.

It is high precision mounting machine, the X, Y axis is using high-end magnetic linear motor, compared with the servo motor, it is higher precision and lifetime.

It is economy, very suitable for the client who is inquiry for middle speed manufacturing at the first time!

#### Parameter

Machine name	Pick and place machine
Mounting heads	12 heads
Mounting speed	45000 CPH
Max PCB Size	1200*500 mm
Mini PCB Size	100*100 mm
X/Y Axis	Using high precision magnetic linear motor

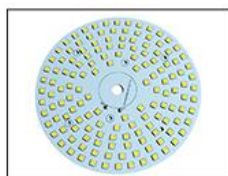

JAPAN THK GUIDE RAIL

HIGH PRECISION LINEAR MOTOR

12 MOUNTING HEADS, 45000 CHIP PER HOUR

APPLY TO:

#### RFQ

What is this module HT-E8S-1200 Mounting speed?

A: This module mounting speed is 45000 chip per hour, it is theoretical speed.

Do you have oven machine supply?

A: Yes, we supply reflow oven machine, stencil printer, conveyor, whole SMT line together. Pls contact us for more details.

How about your after sales service?

A: ETON as the leading manufacturer of SMT Machine in China, we supply the FREE Machine install and training, will sent engineer to your factory for machine install and training. Pls contact us by fellow contact number.
