

Double module Led display 20 head automatic pick and place machine

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE,CCC,SIRA
- Model Number: RT-2
- Minimum Order Quantity: 1 sets
- Packaging Details: Vacuum wooden box packaging
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Dimension: 1200*1930*1500mm
- Weight: 2500kg
- PCB Thickness: 0.1~0.6mm
- Mounting Speed: 80000 CPH
- Head: 20 Pcs
- Component Space: 0.2mm

Product Description

Double module Led display 20 head automatic pick and place machine

Production features:

- 1.This machine belongs to double module.It has 20 head (each part 10 head),which can produce two types of products at the same time.For instance,led bulb, power driver,street light and so on.
- 2.This machine mounting speed is 80000CPH.
- 3.It has 4 sets of camera, high mounting accuracy. Mounting method:group picking and separately place, separately picking and separately place.
4. Application: led street light, led display screen,led bulb ,power driver, down light and so on.

Machine technical parameter:

Model	RT-2
Dimension(L*W*H)	1200*1930*1500mm
PCB Length width	Max:450*300mm;Min:80*80mm
Weight	2500kg
PCB thickness	0.1~6mm
Mounting mode	Group picking and separately placing, separately picking and separately placing
Mounting height	≤15mm
Mounting speed	80000cph
No. Of feeders station	64 PCS
No. Of head	20 PCS

Related machine:

Besides pick and place machine, we have many related machine. Apply to SMT automatic production line .

Machine application:

This machine apply to led bulb, led display, street light, power driver. In addition. It was widely used in Se-mi automatic production(flexible strip light) line, which greatly enhance machine speed and efficiency.

Company details:

ETON company: ETON enterprise was established in 2011. It is a high-tech enterprise dedicated to the R&D, production and sales of SMT high-speed placement machines. ETON has mad breakthrough progress in the field of SMT high- speed placement machine, which are widely used in light, led display, electronics field, power drive, home appliances etc.

Market: We occupied a vast foreign LED market, 80% larger and listed led factory are our client .We have been working with many big companies in India, Turkey, South Africa, Pakistan and so on. Products exported to over 20 countries and regions

ETON industry park: With an industrial park of 50,000 square meters, focusing on the R&D and production of the SMT industry. The industrial park is equipped with an advanced processing and manufacturing center, and the quality of the machine The control is very strict.

Packing & Delivery:

Services:

1. Free technical support: 7*24 hours online technical service.
2. Free installation and training: we have established offices overseas. We can arrange engineers to go directly to the factory for free installation and training.
3. Free upgrade software: machine software is developed by our company, so we provide life-long free upgrade software for customer for customer who purchase the machine.
4. We can provide SMT production line solution with you.

FAQ:

1. It's hard to use the machine?
Machine is very intelligent and easy to operate, like the intelligent phone, also the software is made by our company, so we know how to make it more intelligent and operate friendly.
2. Why choose our pick and place machine?
One. Decades development history.
Two. 80% large and listed Led factory are our client.
Third. Optimum After-sales service system.
Fourth. The quality of machine is good.
3. How can we guarantee quality?
Always a pre-production sample before mass production;
Always final inspection before shipment;
