

Dual Arm LED SMT Mounter Machine SMT Pick And Place Machine With 5 Sets Cameras

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: HT-F9
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum packaging and wooden cases
- Delivery Time: 5~8 work days
- Payment Terms: L/C, T/T

Product Specification

- Warranty: 1 Year
- Name: SMT Pick And Place Machine
- Application: SMT Production Line
- Power Supply: 380AV 50HZ
- Weight: 1700kg
- Mounting Speed: 200000~250000 CPH
- Type: Automatic
- Usage: Circuit Board Assembly
- Dimension: 2700*2300*1550mm
- Pcb Thickness: 0.5~5mm
- Highlight: Dual Arms smt mounter machine,
5 Cameras smt mounter machine,
CE SMT Pick and Place Machine

Product Description

Dual arm LED smt mounter machine with 5 sets cameras

Production Introduction

HT-F9 is high speed pick and place machine with 250000 CPH. The mounting mode is group to take and group to mount.

Our Product Introduction

HT-F9

Dimension	2700*2300*1550mm
Total wight	1700kg
PCB length width	1200*330mm 100*100mm
PCB thickness	0.5~5mm
mounting mode	group picking and separately placing
Mounting height	<=5mm
NO.of camera	5PCS
Mounting speed	200000~250000CPH
NO.of head	68PCS
NO.of feeders station	68PCS

Detail description

Guide rail

It is used to support and guide the moving part and make high-precision reciprocating motion in the specified direction.

Mounting head

68 PCS nozzles for high speed and accurate mounting LED 3014/3020/3528/5050 and resistors ,capacitors bridge rectifiers,etc.

Company profile

ETON has a 14-year history in the placement machine industry. It established a research and development center in 2007. In 2010, seven patents were obtained, including "group selection and group score" and "group selection adjustment". In 2010, Shenzhen ETON Automation Equipment Co., Ltd. was established, and its first branch was set up in 2020. Since the development of the multi-function placement machine in 2014, after years of painstaking research and development, a breakthrough in technology has finally been achieved, and a variety of multi-functional universal placement machines have been successfully developed.

Packaging

First step: Using film packaging

Second step: vacuum packing

Last step: Wooden box

First step → second step → last step

Service

1. Pre-Service:

We will support the SMT line

We will recommend the best pick and place machine according to the products

We will supply best quotation with factory price

2. After Service:

Machine will have good test before shipping

We support machine free installation and training, and we can also support online training, and video teaching.

We have Professional after-sales team, could solve problem as soon as possible

Machine warranty is one year, during warranty, any parts need to be repaired and replaced will be free for clients.
