

Multi Function SMT Pick And Place Machine 24 Feeder Station For LED Lighting

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE, ISO
- Model Number: HT-E8S
- Minimum Order Quantity: 1 set
- Price: USD 28800-43200 PER SET
- Packaging Details: Vacuum wooden packing
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T
- Supply Ability: 50 unit per month

Product Specification

- Name: Pick And Place Machine
- Dimension: 2550*1650*1550mm
- Weight: 1700kg
- No. of Camera: 2 Sets Of Imported Camera
- No. Of Head: 12 Pcs
- No. Of Feeder Station: 28 Pcs
- Mounting Speed: 45000 CPH
- Mounting Precision: ± 0.04 Mm
- Power Consumption: 4 KW
- Operating Environment: 23 ± 3
- Highlight: 0.04mm SMT pick and place machine,
4 KW SMT pick and place machine,
LED Lighting SMT Mounting Machine

Product Description

led lighting adjustable pressure pneumatic SMT machine pick and place machine

The features

1. The biggest feature of HT-E8S-1200 single module is that it is suitable for a variety of products.,12 PCS of heads, 28 PCS of feeders station with mounting speeds up to 45000 CPH. Not only can mount LED bulbs, street light, table light, down lights, power driver, electric board, lens and so on, but also display screens and linear products, such as LED tube, flexible strip.
2. The exclusive patented technology includes: electronic feeder feeding system, vision alignment flight identification, mark correction, non-stop material re-loading function, auto-optimization after coordinates generated.

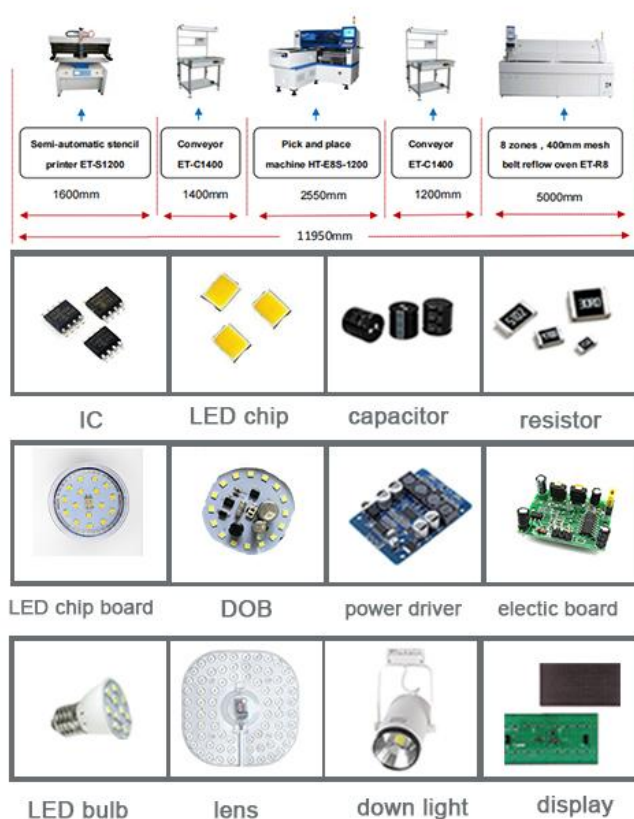

The technical parameter

2550mm*1650mm*1550mm	
Total weight	1700kg
PCB Length width	1200*500mm-100*100mm
PCB Thickness	0.5-5mm
Feeding way	Electric feeder with double motor
Mounting precision	±0.04mm
Conveyor transmission	Max length: 1200mm
Transmission speed	≤1000mm/sec
Component space	0.2mm
Component height	<15mm (Automatic changing)
Transmission direction	Both direction (Option)
No. Of feeders station	28PCS Single module
No. Of head	12PCS Single module
Operating environment	23 ±3
Power consumption	4KW
X, Y, Z Axis drive way	High-end magnetic linear motor and serve motor

The production line and SMT related equipment

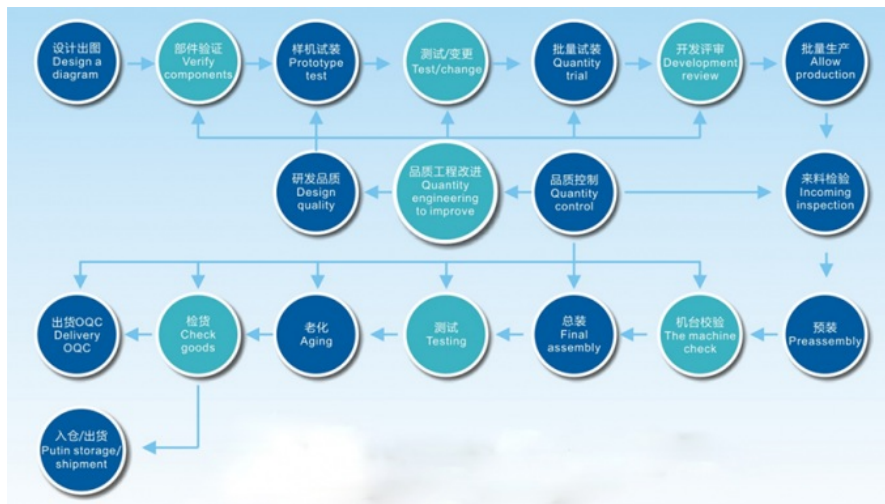

HT-E8S-1200, thinking the cost and other factor, we will recommend the semi automatic SMT production line, including semi-automatic stencil printer, 1.4 M conveyor, pick and place machine, 8 zones reflow oven.

ETON - HT-E8S-1200 Semi-automatic Production Line

Quality control and service

We have perfect and strict quality control process. From design a diagram to put storage / shipment, every step is strict control, to ensure the quality of equipment.

We also have excellent after-sales service (One year warranty period, visit customers regularly and gather information, provide latest information about technology and equipment), keep to the concept of " no worries " after-sales service.

□

FAQ

1. What the main components that pick and place machine can mount?

It is available for all kinds of components, including LED chip, resistors, capacitors, IC, shaped component and so on.

2. How about the operating software?

software is researching and developing independently by our own.

3. Do you provide personal customization?

Yes, we provide personal customization. My dear clients can contact the sales specialist to customize the equipment what you need.

4. How about your company?

ETON was founded in 2011, and has more than 11 years experience. In addition, ETON has obtained a number of intellectual property technologies. The products are exported to more than 20 countries and regions.
