

Mark Correction SMT Pick And Place Machine Double Module Multifunctional 24 Heads

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: HT-E8D-1200
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum package, wooden case
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets/month

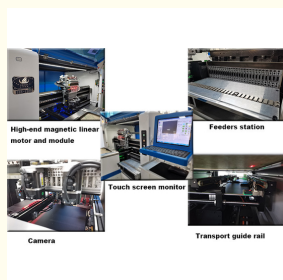

Product Specification

- Name: SMT Pick And Place Machine
- Dimension: 3150*2250*1650mm
- Total Weight: 2500kg
- PCB Size: Max 1200*300mm
- PCB Thickness: 0.5~5mm
- PCB Clamping: Adjustable Pressure Pneumatic
- Camera: 4
- Warranty: 12 Months
- Highlight: Mark Correction SMT pick and place machine ,
24 Heads SMT pick and place machine ,
Double Modules SMT Mounting Machine

Product Description

Double module multifunctional 24 heads mark correction smt pick and place machine

Machine Describe

Mark camera: Mark correction, high precision, ensure high-precision mounting
10 heads, group picking and separately placing, separately picking and separately placing, the optimal capacity reach 40000CPH.

Machine parameter

Dimension	2550*1650*1550mm
Total weight	1700kg
PCB size	Max 1200*500mm min 100*100mm
PCB thickness	0.5~5mm
PCB Clamping	Adjustable pressure pneumatic
Mounting precision	0.04mm
Mounting height	<15mm
Components space	0.2mm
Power consumption	4KW

Our advantages

1. we have a high tech and strength team who can provide a series of professional technical support for our customers.
2. Ship the goods to you in short time

We have our own industrial park and production and assembly workshops etc. We can produce 100 machines every month

3. Competitive price

You can get a reasonable price form here. Our price is factory price. As in a special filed, we control all the processes to save the cost and give you a perfect price. And our company Pursue quality first.

Our purpose

Customer oriented, quality first.

Our service: high-tech, high-quality, high-efficiency

Our products are widely recognized and trusted by users and can meet continuously developing economic and social needs.

Eton will aim to "Create a well-known national brand and build a world-class enterprise".

Carefully packaging

We use wooden box packaging, vacuum packaging, carton packaging and other combinations to ensure that the goods will not be damaged during transportation.

Service

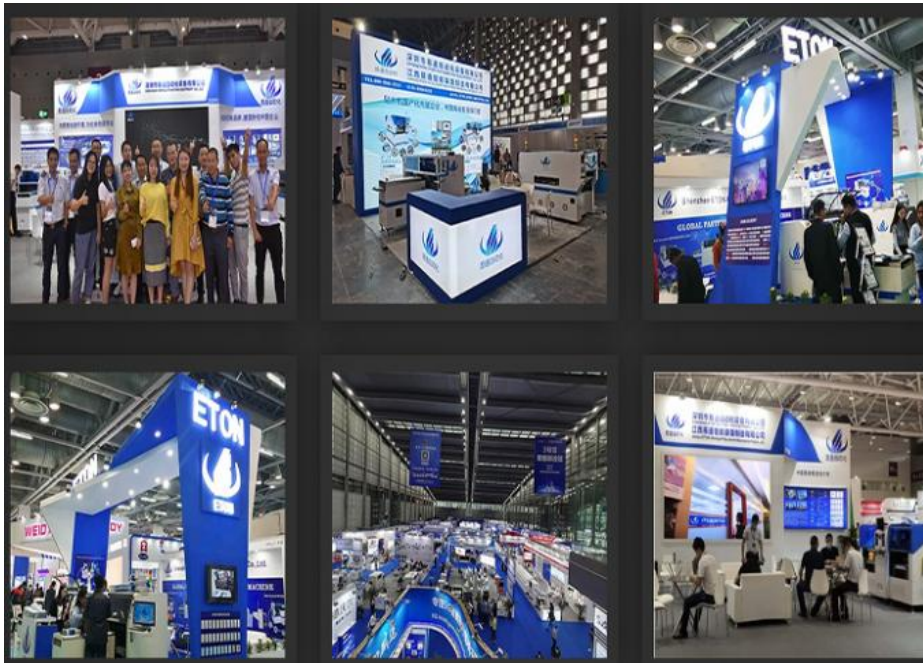

Our Best Service

Besides, we have offices and local engineers in India, Turkey, Egypt etc, if you buy our machine we can arrange engineers come to your factory for free installation and training. the service is very convenient.

Exhibition

We participate in various large-scale exhibitions at home and abroad every day, such as Guangzhou international lighting Exhibition, Shanghai Munich Exhibition, Chongqing LED light Exhibition, India Delhi Exhibition, Pakistan Exhibition, Egypt Exhibition etc.

FAQ

Q:What is the difference between semi-automatic production line and full-automatic production line?

A:In short, fully automatic production lines are expensive, but require less labor. Semi-automatic production line is more affordable, but the labor will be more than the automatic line

Q: About technical offer

A: As for machine operation, we will arrange engineers to go to your factory for installation and teaching after you buy our machines.

If you have engineers who have been involved in the installation of SMT equipment, we can teach you how to install it online.

Q: If machine have any problem after I receive it , how can I do?

A: During the warranty period, we will replace it for you free, or we can arrange a process engineer to repair it for free
