

Semi Automatic Solder Paste Printer Machine 1500mm pCB length PLC controlled

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: ET-S1500
- Minimum Order Quantity: 1 set
- Packaging Details: Wooden package

Product Specification

- Name: Semiautomatic Stencil Printer Machine/solder Paste Printer Machine
- Model: ET-S1500
- Max Pcb Length: 1500 Mm
- Warranty: One Year
- Highlight: **Semi Automatic Solder Paste Printer Machine, PLC Controlled solder paste printer machine, 1500mm solder paste printer**

Product Description

7 days delivery semiautomatic solder paste printer machine

Machine function

Semiautomatic printer machine function is printer solder paste or the red glue on the PCB.

Machine structure

Semiautomatic printer is very easy machine, it is controlled by the PLC, and it is widely applied to many kind of led factory. For the led tube, led module lighting, which board is more than 1000mm/1200mm are usually using semiautomatic printer machine for save much cost.

Machine structure

1. High precision linear guide and ultra-quiet motor, squeegee printing is more stable
2. The combined printing platen is equipped with a fixed slot and a positioning PIN, which is quick to change and easy to locate, and is suitable for single-sided substrate and double-sided substrate operations.
3. The correction method adopts the movement of the net support arm to coordinate the X,Y,Z correction adjustment of the printed matter, and the correction is convenient and simple.
4. Using air cylinder and magnetic proximity switch, the worktable reciprocates, the accuracy of the printing surface can be reach $\pm 0.01\text{mm}$
