

High Precision LED SMT Pick And Place Machine 45000CPH Windows 7 System

Our Product Introduction

for more products please visit us on smtmountingmachine.com

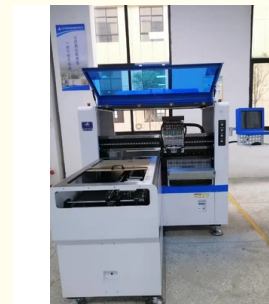

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: HT-E8S-1200
- Minimum Order Quantity: 1 Set
- Packaging Details: wooden box with vacuum package
- Payment Terms: T/T
- Supply Ability: 50 sets per month

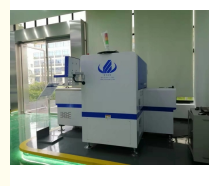

Product Specification

- Dimention: 2550*1650*1550
- Total Weight: 1700kg
- PCB Length Width: Max 1200*500mm Min 100*100mm
- PCB Thickness: 0.5-5mm
- System: Windows 7
- Software: R&D Independently
- No.of Camera: 2 Sets Of Imported Camera
- Mounting Speed: 45000CPH
- Components: LED Chip, Capacitors, Resistor, IC, Shaped Components.etc.
- Electrical Control: Independent Research And Development By Eton.
- Highlight: smt pick and place machine Windows7,
smt pick and place machine 45K CPH,
smt placement machine windows 7

Product Description

Vision camera 0402 components high precision led smt pick and place machine

What are the functions of high-quality domestic placement machines -2?

Mounter operating system

1. Various indicators, buttons, and operating handles have a complete appearance, and the operation and display are normal;
2. The computer system works normally; 3. The input and output system works normally.

The mechanical part of the placement machine

1. The conveyor belts, chains, and connecting pins are complete, and there is no aging damage;
2. Each transmission guide rail and lead screw run smoothly and harmoniously, without abnormal noise and oil leakage.

The Main Details for HT-E8S-1200

1. Max PCB size: 1200*500mm
2. Optimal speed: 45000 CPH
3. High-end magnetic linear motor+servo motor
4. 12 PCS heads, 32 feeders station.
5. Components: led ,capacitors, resistors, shaped components, etc

Mounting height

15mm(Automatic changing) support customized

Components space	0.2mm
Mounting speed	45000CPH
conveyor transmission	MAX length:1200mm
feeding way	electric feeder with double motor

ETON is your best choice

Why Choose Us

Company Induction

1. Was founded in 2011, Own Industry Park over 50000 square meters, Provide SMT whole line solution.
2. Own Industry Park with 7 buildings, over 50000 square meters. **Control quality** from the source.
3. Most of mechanical part are manufactured by ETON, Such as: CNC workshop, Assembly workshop, Powder Spraying Workshop, etc.
4. ETON has invented the fastest automatic pick and place machine with speed **500000** CPH.
5. Supported with an excellent RD team ETON has strong ability to OEM/ODM for customers, custom unique design for you with the best cost.

Leading manufacturer
Top brand since 2007
Full solution supplier

SMT Production Line Solution

1. **Automatic** stencil printer machine with pick and place machine, loader, conveyor, unloader, reflow oven to be one automatic line.
2. Different **SMT line** design will be little different. Some factory will using one automatic stencil printer machine for different SMT line.
3. ETON will provide the **professional suggestion** for the line design.

LED light production line

Semi-automatic SMT line

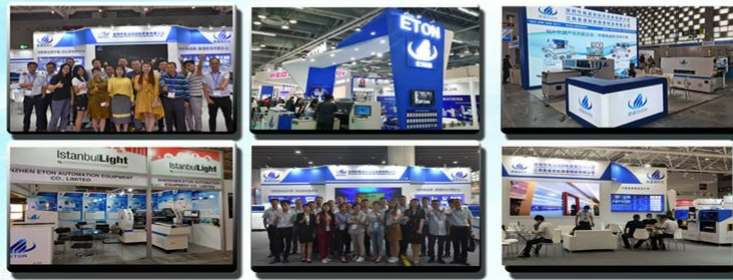

Exhibition

- 1.ETON is a very strong and powerful company. We attend many exhibitions every year.
- 2.We occurred 85% percent in China LED lighting markets, but also send machines to India, Korea, UK, Russia, Egypt, Turkey, Vietnam, Iran, Japan, Australia, Poland, etc more than 20 countries.
- 3.Not only in China, India Delhi, Indian Mumbai, Pakistan Karachi, Turkey Istanbul, Egypt Cairo, Russia Moscow, Vietnam Hanoi etc.

ETON Exhibition

ETON is committed to building an international brand, dominated by SMT machines, to show the world the technological strength of our brand, and to show the quality of our machines on a global scale. In the past, we have participated in many LED lighting exhibitions and professional equipment exhibitions in India, Vietnam, Thailand, Turkey, Egypt and other countries.

Customer's factory

ETON as the leading manufacturer of global optoelectronic high speed pick and place machine, the products are exported more than 20 countries and regions, including India, Vietnam, Tunisia, Egypt, Turkey, Russia, Thailand, etc.

FAQ

1.Why should you buy from us not from other suppliers?

We are high-tech professional manufacturer of SMT machine with more than 10 years with good quality and reputation. We have rich experience in helping client to start new factory and new line. "Professional, high-effective, cost-saving" are our advantages.

2.Want to produce P2.0 display, please recommend me a suitable machine?

- 1)We have machine can produce LED display, P2.0 display we can't produce.
- 2)Cause P2.0 display requires high precision, high-end equipment, At present, there is no equipment in China that can

produce such a high-precision display screen as P2.0. Only Siemens, Fuji and other high-end placement machines can produce.

3)The cost needs to invest at least several million,If it is the first time to build a display production line, it is recommended that the first production line should not invest such a large production cost to produce P5, P8, P10 displays first. It is better to be familiar with the production line.

3.I want a 3 year warranty

1)Generally, we provide 1 year Warranty, Standard warranty on all equipment is 1 year, During the maintenance period, Parts need to be replaced due to force majeure, We provide replaced or repaired are free of charge; but not means over 1 year warranty, we do not provide services, just means spare parts. Such as software, we can free updated for whole lifetime.

2)if you want 3 years warranty, that should be plus USD 3000 per year. Cause warranty service is a big expense for us. Such as: parts cost, labor cost,etc.

3)So please understand.

4.Our company is about to place an order, give me a 20-point rebate, I will give it to your family, or I will give it to someone else

1)It's true that our price is not cheap. But this is because our machines have invested a huge cost in research and development, our machine the main parts are imported to ensure the high performance.such as Grating scale import from UK RENISHAW, Guide rail Imported from Japan THK,etc. The software R&D ETON, free updated for whole lifetime.

2)This is the best price to you, if you don't believe it, we can show contract to you.

3)if someone give you 20% discount, that means its machine have a huge profit margin, that means the machine quality is not good quality. Before we have the customer buy a cheaper machine, less than a week, the machine can't work, and don't have after sale service. He very sad, caused huge losses. Then he buy machine from our ETON, we get his feedback, the machine is running so good, service is good.

ETON machine selling point is high quality, plus high service. You deserve it.
