

Window 7 SMT Production Line 68 Heads SMT Pick And Place Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1 Set
- Packaging Details: wooden box with vacuum package
- Delivery Time: 30 days after deposit
- Payment Terms: T/T
- Supply Ability: 50 sets per month

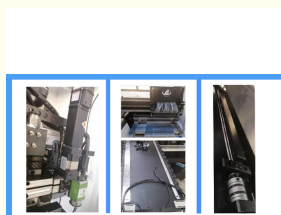

Product Specification

- System: Window 7
- Software: R&D Independently
- PCB Length Width: 250mm*any Length
- Mounting Mode: Group To Pick And Group To Mount
- No.of Camera: 5PCS Digital Camera)
- Mounting Speed: 200000-250000CPH
- No.of Feeders Station: 68PCS
- No.of Head: 68PCS
- Conveyor Transmission: MAX Length: 1000mm
- XYZ Axis Drive Way: High-end Magnetic Linear Motor + Servo Motor
- Highlight: **Window 7 SMT Production Line ,
68 Heads smt production line ,
smt pick and place machine 250000 CPH**

Product Description

25W CPH smt production line 68 heads smt roll to roll pick and place machine

What are the functions of high-quality domestic placement machines -2?

Mounter control part:

1. The drive cylinder, solenoid valve, piping, and connectors are free from foreign body blockage and loose air leakage. The driving cylinder and solenoid valve work normally without noise;
2. The drying and filtering device of compressed air is complete and intact;
3. The vacuum degree of the led placement machine head is not less than 500mmHg. The placement accuracy is the maximum offset between the center of the component and the center line of the corresponding pad, which is not more than 1/3 of the width of the component solder feet (visual inspection); or the occurrence rate of abnormal offset is not more than 3/1,000.

The appearance of the placement machine instruments and meters is in good condition, the indication is accurate, the reading is eye-catching, and within the qualified service period; the inside and outside of the equipment are regularly maintained, kept clean, no oil stains, no rust, the surrounding accessories are arranged in an orderly manner, and the equipment is well lubricated.

Production Introduction - HT-T9

PCB length width: 250mm*any length Roll to roll strip light.

Dimension(mm): 3100*2300*1550

PCB thickness: 0.5-1.5mm

Mounting mode: group to pick and group to mount

No.of head: 68PCS

Mounting speed: 250000 CPH

Roll to roll machine optimize and upgrade all the time, total 6 generation. It combine the technology and experience and market demand. It is good ensurance for whole solution.

ETON Roll To Roll Machine

HT-T9

PCB size 250mm *any length

No of camera 5 pcs

No of head 68 pcs

Mounting speed 250000 CPH

Components: LED 3014,3020,3528,5050 and capacitors, resistor,bridge rectifiers. etc.

Components space: 0.5mm

No.of feeders station: 68PCS

available for 5M,50M or any length flexible strip and Roll to Roll

Calibration automatically, high precision, available for RGB.

SMT Mounter Main Parts

Application - HT-T9

Any length led strip light, **100M** led strip light also can do it!

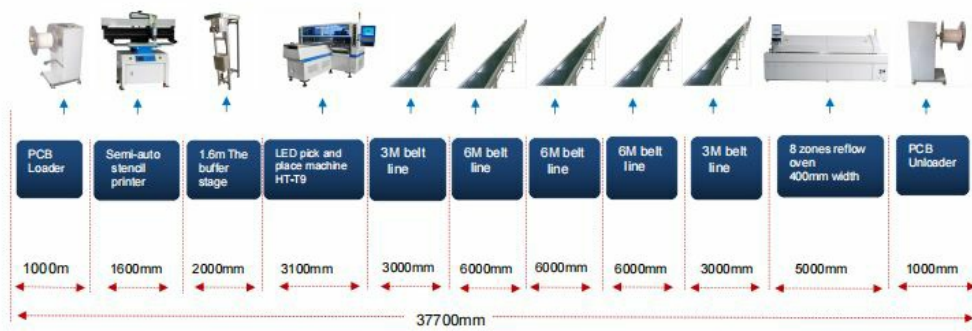

SMT line solution- Semi-Automatic production line

ETON is rich experience in roll to roll production, we helped hundreds client to build new production line, training them how to operate it, and technology.

The first line is in **SIRY** we cooperate with them very early and they have our machine in show room and in production.

The Machine have loader, stencil printer, buffer stage, pick and place machine, belt line, reflow oven, unloader machine.

ETON - HT-T9 100m Semi-automatic No-wire flexible strip Production Line

Company introduction - Top brand

ETON is the original inventor of the roll to roll making machine. We invent the first roll to roll machine in 2011. own the core technology and the most professional manufacturer.

We have strictly quality control during all production from raw materials to the finished machine.
 The best suggestions of full SMT line equipment according to your budget and site.
 Supported OEM and ODM ,custom unique design for you with the best cost.
 Expanded our plant and built a new bigger industrial park in Jiangxi Province, over 50000 square meter.

Leading manufacturer

Top brand since 2007

Full solution supplier

Our Advantage

ETON Company

- A leading manufacturer of automatic high-speed pick and place machine
- The largest high-tech LED light making machine manufacturer in China
- Obtained a number of intellectual property technologies,including 9 invention patents,112 practical patents,12 software copyrights

ETON Industrial Park

- There is 50000 square meters modern intelligent Industrial parks,equipped with an advanced processing and manufacturing center
- There are various types of machines, the fastest capacity reache 250000CPH, which is the fastest machine mounting speed in the world

ETON Team

- High service efficiency,there is service office in India.
- Quality First,Client-oriented,Continuous Improvement.
- 24 hours online for you to answer

Customer's factory show - roll to roll machine

FAQ

1. I want to do a letter of credit

The procedure of L/C payment is complicated, which will waste a lot of time on payment. As a result, you need to wait longer to get the machine, which will delay your production plan and delay the opportunity.

When there is an error in the letter of credit, you will have to pay a fee to correct the error, which will increase your cost.

2. How is the warranty?

Machine has a warranty period of 12 months from delivery and lifetime maintenance service.

provide online Q/A and troubleshooting support and technical advice service. Provide one to one after-sale service.

Every machine will be checked carefully before shipping out. If Buyers receiving it, advance check the package first.

3.Does your machines have quality certificates?

We are high-tech enterprise with CE, SIRA, CCC.

"Well-know brand" and many technology patents,

Over133 patent certification

Find me on Whatsapp: +86 19880662073 and let's discuss more. Thank you!
