

Multifunctional SMT Mounting Machine Double Module 4 Sets Cameras

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC/CE/SIRA
- Model Number: RT-2
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum packaging and wooden cases
- Delivery Time: 5~8 work days
- Payment Terms: L/C, T/T

Product Specification

- Warranty: 1 Year
- Name: SMD Chip Mounter, SMT Pick And Place Machine
- Application: SMT Production Line
- Power Supply: 380AV 50HZ
- Weight: 2500kg
- Mounting Speed: 80000CPH
- Dimension: 1200*1930*1500
- Feeders: 64PCS
- Pcb Thickness: 0.1~6mm
- Speed: 80000CPH
- Highlight: **SMT mounting machine multifunctional,
SMT mounting machine Double module,
4 Cameras SMT mounting machine**

Product Description

Double module multifunctional SMT mounting machine 4 sets of cameras

Product description

1. Magnetic linear motor multifunctional pick and place machine
2. It has four sets of cameras, two sets of MARK cameras and two sets of flight recognition cameras
3. X,Y,Z Axis drive way is high-end magnetic motor
4. Mounting high components and small board products is not easy for components to vibrate and loosen

Dimension	1200*1930*1500mm
Weight	2500kg
PCB length width	450*350mm 80*80mm
PCB thickness	0.1~0.6mm(If<0.6mm need jig)
PCB clamping	pneumatic
Mounting mode	group picking and separately placing,separately picking and separately placing
NO.of camera	4 PCS
Mounting precision	±0.04mm
Mounting speed	80000CPH
NO.of feeders station	64PCS

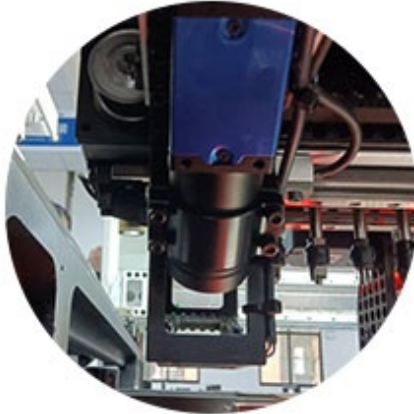

Detail description

MARK camera

MARK camera is a PCB board placement program by scanning the mark point as a reference

Flight identification camera

Take a photo of the head to pick up the components, compare the placement procedure with the MARK camera before, and calculate whether it is necessary to compensate for the positive components

Production line

We can provide you with the production lines you need, such as fully automatic and semi-automatic production lines. It can also be planned according to the products you produce. Our company can provide you with all the machines above.

Company profile

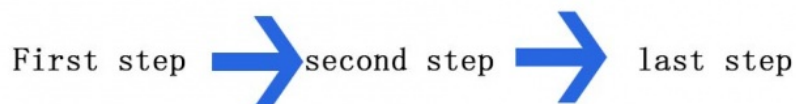

Packing

First step:Using film packaging

Second step:vacuum packing

Last step:Wooden box

FAQ

1.How many kinds of mounter are there in your company?

A:We can roughly divide it into two types, one is a special machine, the other is a multi-function machine.

2.Is the conveyor just have one size?

A:The general size of the connecting conveyor is 500 / 600 / 1200 / 1400 / 1500mm, and the supporting size of the connecting conveyor is generally larger than that of the PCB.

3.Why we choose you company?

A:ETON has independently developed the world's first technological invention patents and proprietary technologies, including 9 invention patents, 12 software copyrights and 112 practical patents.

4.How long you can deliver the goods?

A:30% down payment,70% payment before delivery.
