

High Speed 250000cph T9 SMT Pick And Place Machine For LED Flexible Strip

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum package, wooden case
- Delivery Time: 30 days
- Payment Terms: T/T
- Supply Ability: 50 sets/month

Product Specification

- Name: SMT Pick And Place Machine
- Weight: 1700kg
- Pcb Thickness: 0.5-5 Mm
- Applicable Components: 0402
- Mounting Speed: 200000~250000cph
- Feeders: 68
- Type: Automatic
- Warranty: 12 Months
- Highlight: LED Strips smt pick and place machine ,
Pick And Place Machine 250k cph,
Flexible Strip smt pick and place machine

Product Description

LED Flexible strip high-speed 250000cph T9 smt pick and place machine

Products feature

1. Dual arm LED high-speed pick and place machine
2. Producing 4 types materials at the same time, capacity reach 250000CPH
3. Apply to the 0.6m,0.9m,1.2m rigid PCB and 0.5m,1m LED flexible strip
4. Available for board with any proportion of LED chip and resistor
5. Calibration automatically, high precision, available for RGB

Machine parameter

PCB length width	Max 1200*330mm
Software	R&D independently
Camera	5
Mounting height	≤5mm
Mounting speed	250000CPH
No.of feeders station	68
No.of head	68
Power consumption	6KW

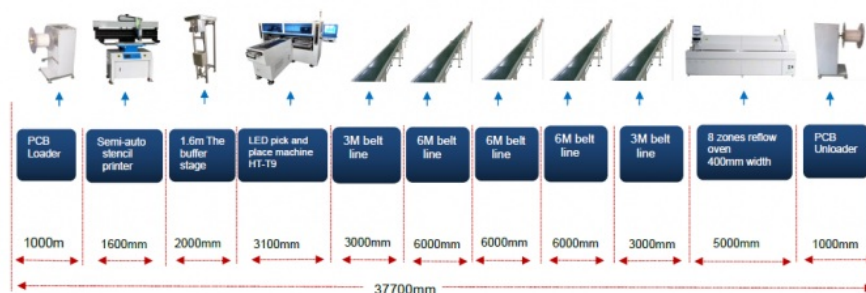

Application

It is suitable for producing flexible strip of any length, such as 0.5m, 1M, 5m, 10m, 50m, 100m and 500m.

SMT production line

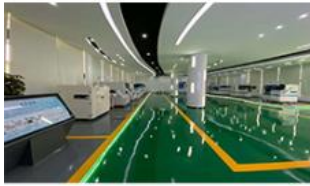

SMT production line mainly include: printer machine(The solder paste is missed printed on the PCB pad through the steel mesh of the printer), pick and place machine(Mount the drive and other components at the designated position on the PCB), reflow oven(Melt the solder paste to make it adhere to the mounting element), conveyor(It is used for the connection between SMT production lines, buffer, inspection, test of PCB, or manual plug-in of electronic components)

Company show

The company was founded in 2011, it is a manufacturing and process solution provide focusing on R&D, production, sales and service of SMT high-speed pick and place machines and SMT peripheral automation equipment.

There are 14 years of high-speed Mounter research and development experience, and the production Capacity reaches 500000 CPH.

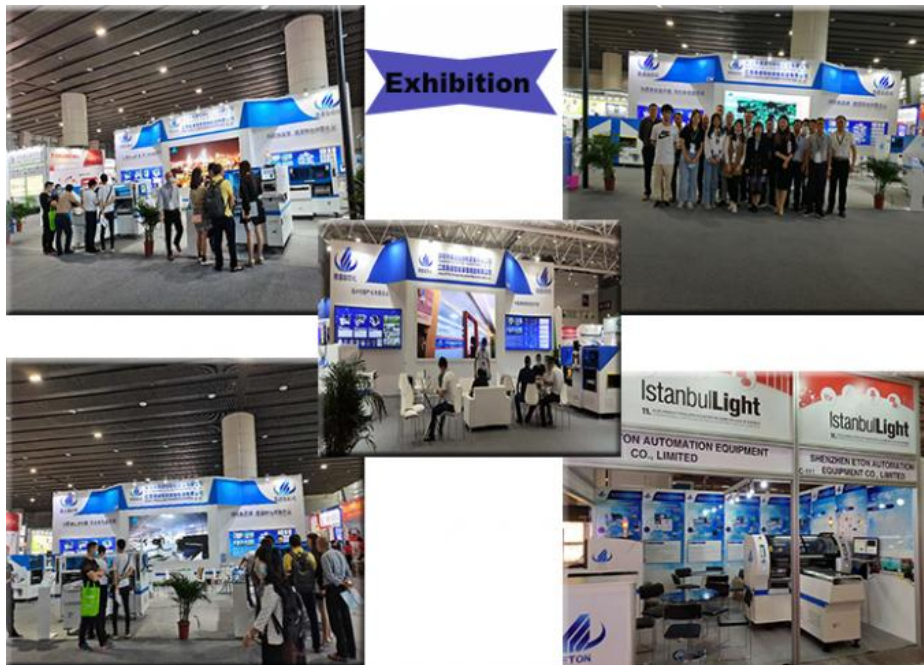

Package

Our products are generally packed in vacuum wooden cases, which can better protect our products from damage and loss during transportation. The packing cases are very strong and solid, we will arrange delivery and packaging according to the needs of customers.

Exhibition

Our products are exported to more than 20 countries and regions, such as South Korea, India, Vietnam, Tunisia, Egypt, Turkey, Russia, Brazil, Iran, etc.

Service

1. There are offices in India and Egypt and local engineers. As long as you buy the machine, We will arrange engineers to install debug and training you for free, until you learn to operate the machine, service is very convenient.
2. Provide 1-2 times a year free for machine repair after the warranty period.
3. Visit customers regularly and gather information from our customers.
4. Provide latest information about technology and equipment.

FAQ

Q: Is hard to use these machines?

A: No, not at all. All our machine are automatic, you just type in the program and it will work. The operation is relatively simple and I believed that certainly learn in two days.

Q: Is the software for these machine in English?

A: Yes. Our software is independently developed, there are two version in English and Chinese.

Q: What products you sell?

A: Our company deal in the following products:

SMT equipment and accessories: pick and place machine, stencil printer machine, glue dispenser, conveyor, feeders, SMT nozzles, etc.

Q: This is the first time I use this kind of machine, is it easy to operate?

A: There is English manual or guide video that show you how to use machine. If you still have any question, please contact us by e-mail/ Skype/ phone/ wechat/ online service.

Q: About technical offer

A: As for machine operation, we will arrange engineers to go to your factory for installation and teaching after you buy our machines. If you have engineers who have been involved in the installation of SMT equipment, we can teach you how to install it online.
