#### Advantage

Dual system, dual module multifunctional mounter. To produce two different products at same time.

The maximum size of e8s-1200 PCB is 1200 \* 300mm, which means that e8s can be pasted with a variety of products, such as panel lamp, bulb, street lamp, display screen, Down light, lamp tube, spotlight, etc. Its minimum PCB board is 100 \* 100mm, and the components that can be attached include capacitance, resistance, IC, lens, special-shaped components, etc. The minimum size of mounting components is 0402 and the maximum is 15mm. It can also be customized. Compared with E8S, E8D has higher production capacity, and the optimal production capacity per hour can reach 90000 CPH. For RT-1, E8D has higher accuracy.

#### Exclusive patented technology

1. Electronic feeder feeding system.
2. Vision alignment flight identifications, Mark correction.
3. Non-stop material re-loading function
4. Auto-optimization after coordinates generated, etc.
