

LED Flexible Strip PCB Board Mounting Machine SMT Pick And Place Machine 68 Head 68 Feeder

Our Product Introduction

for more products please visit us on smtmountingmachine.com

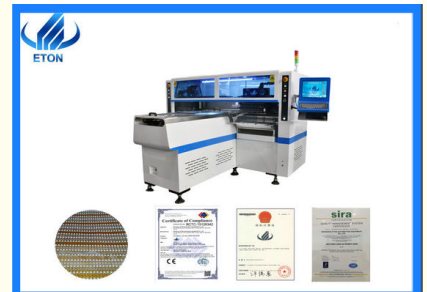

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC CE SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1 SET
- Packaging Details: Vacuum wooden box
- Supply Ability: 50 PCS/month

Product Specification

- Name: Pick And Place Machine
- Warranty: 1 Year
- Length: 3100mm
- Width: 2300mm
- Height: 1550mm
- Total Weight: 1700kg
- Software: R&D Independently
- System: Windows 7
- Highlight: LED strip PCB board mounting machine,
flexible strip PCB board mounting machine,
68 head SMT pick and place machine

Product Description

LED flexible strip PCB board mounting machine SMT pick and place machine with 68 head 68 feeder

Product description

T9 is a placement machine specializing in the production of soft light strips. The speed is very fast. Two robotic arms work at the same time, and the fastest production capacity can reach 250,000CPH.

A total of 68 nozzles, 68 feeders, and exclusive patented technology make this machine unparalleled in speed.

Feature

1 The wiring is unique, because the production of flexible light strip PCB board is infinitely long, but the speed of the placement machine cannot be infinite, so it is necessary to add some buffer racks and buffer belts as buffers during wiring for better production.

2 The guide rail is unique, and the guide part is designed to be solid, because the PCB board for the soft light strip is too soft. If it is designed to be hollow, other LED lights can be used, but for the soft light strip, a fixture is required. So this is a machine specially made for the production of flexible light strips.

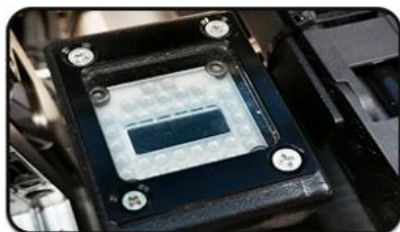

3 The production capacity is very fast, creating more benefits for you in the limited space.

Parameter

PCB size	250mm*any length
PCB thickness	0.5-1.5mm
PCB clamping	Vacuum adsorption,cylinder splint,adjustable track width
Mounting mode	Group pick and Group place
Mounting height	≤5mm
Mounting speed	200000-250000CPH
No.of head	68 PCS
No.of feeder	68 PCS

Main part

The key components are selected from the top brands in the industry, with excellent quality, and the use of linear motors is far greater than that of servo motors in terms of accuracy and service life.

Why choose us?

As the leader of SMT manufacturers in China, ETON has more than 20 years of R&D experience, mature product line, and professional team.

We will provide each customer with exclusive services that belong to you, including the matching of production lines and the scope of after-sales service.

Provide high-quality after-sales service

1 Free replacement of any damaged parts within the one-year warranty period

2 Our engineers provide free door-to-door service to help you install the machine and train the staff until you produce smoothly, and our machine is also very simple

3 Lifetime free upgrade of machine software department

SMT Full Automatic Solution

Directly manufacturer Whole smt line

COMPANY ADVANTAGE >>

10 YEARS

1.OEM&ODM

Supported with an excellent RD team ETON has strong ability to OEM and ODM for customers ,custom unique design for you with the best cost.

2.High quality

We have strictly quality control during all production from raw materials to the finished machine.

4.Efficient team

We provide the most systematic solution for you. The best suggestions of full SMT line equipment according to your budget and site.

3.Competitive price

We are directly manufacture of the ETON pick and place machine, so we can give you the best competitive price with high quality materials .

Before order

We will support professional suggestion of SMT line
We will recommend the best module according to the products
We will supply best quotation with factory price

After order

Machine will have good test and aging before shipping
We support machine free installation and training,
Special time we support online training, and video teaching.

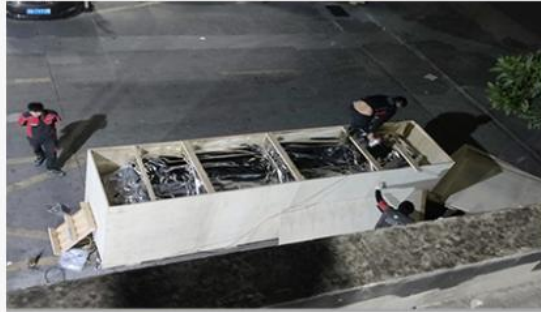

ETON is Top brand of SMT machine in China

Market share in China: 80% of large listed factories are our customers
Our products are exported to more than 20 countries & regions

Package

We usually use vacuum wooden cases to pack the products. Vacuum can be very shock proof and ensure the integrity of the products. If you have special requirements for packaging, we can also realize it for you.

Package:
Vacuum
wooden
box

FAQ

Q1: Is there any difference between your multi-function machine and your special machine?

A: The multi-function machine can mount a variety of products, and the special machine is best to mount lamp tubes and strips. The biggest difference belongs to the difference of function and production capacity.

Q2: Is the machine I bought a complete set?

A: Yes, but it should be noted that we can give away some consumables such as suction nozzle, but you can also buy more if you need.
