

PCB Driver Board SMT Pick And Place Machine For 0201 40X40mm Tape Reel Package

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC CE SIRA
- Model Number: YT101S
- Minimum Order Quantity: 1 SET
- Packaging Details: Vacuum wooden box
- Supply Ability: 50 PCS/month

Product Specification

- Name: Pick And Place Machine
- Warranty: 1 Year
- Length: 2154mm
- Width: 1376mm
- Height: 1762mm
- Total Weight: 1700kg
- Highlight: 40k CPH SMT Pick And Place Machine, servo SMT Pick And Place Machine, servo Smt Placement Machine

Product Description

PCB driver board SMT pick and place machine with 0201-40*40mm tape reel package

Product Description

YT101S, the latest research results of our company, a single module, one system, 10 nozzles, the highest production capacity can reach 40000CPH, the key is that the minimum component size can be applied to 0201, the camera can identify large components of 40*40mm, complex BGA, CSP also can be identified.

In addition, this is a multi-function placement machine, not only suitable for all LED lights, but also suitable for driver boards in home appliance applications, PCB driver boards for various products, etc.

Cost-effective, super affordable, supports fully automatic and semi-automatic lines, diversified wiring configurations, and recommends the most suitable and professional production line according to your actual product.

Feature

Adopt High-speed multi modular head, apply to ultra small chip 0201~40*40mm large Chip, wider component range.
Improve recognition performance, size up to 40mm*40mm, apply to BGA or CSP etc.
Each placement head with independent detection function, which improves the stability of the equipment and the reliability of the product.
Adopt High-end magnetic linear motor, servo system and multi function modular head, the capacity increased by 25% compared with traditional machine, optimum placement speed reach 40000 CPH.
Support YT series double head intelligent electric tape reel feeder, by optically correcting the feeding position of the component, it can achieve stable, accurate and high-speed feeding.
Brand new self-developed high-precision placement head.
High-speed precision head flight vision camera capture the image of placement accordingly, improve the speed and accuracy of placement.
The placement head adopt independent vacuum detection, improve placement performance.
Off-line programming, save time of changeover cycle.
Software AI intelligent learning function and automatic optimization function.

Full-auto production line

YT101S fully automatic line configuration is also very simple, we can provide a complete set of solutions, if you produce high-precision PCB boards, we can also set up SPI, AOI and other equipment for you to test to improve the completion of finished products.

Exhibition

Our exhibitions mainly include India exhibition, Pakistan exhibition, Thailand Exhibition, Egypt exhibition, Turkey exhibition, etc. the following are the photos of the exhibitions we have participated in and the different LED lamp manufacturers we have cooperated with.

Company show

Looking forward to the future and providing value, we are committed to continuously providing "smarter, more professional, more efficient and lower consumption" products and services for the market. The following are the comments of some partners on us:

The ETON service is very special, engineers are very patient and easy to use machines.—— Fikret

ETON machine mounting speed is very fast, the quality is also very good, long life, after-sales service is very comprehensive, Worth having.

—— Sanjay

A very functional machine can be a lamp, a lamp and a driver, a very smart stick!

—— cagin

FAQ

Q1:What value services can I get after I buy the machine?

A:We will follow up all processes, help you clear customs and do our best to ensure your interests. At the same time, after your production is on the right track, we will also visit regularly to share your latest industry information.
