

34pcs Heads High Speed Pick And Place Machine For LED SMD Lamp

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINE
- Brand Name: ETON
- Certification: CCC, CE, SIRA
- Model Number: HT-F7S
- Minimum Order Quantity: 1 set
- Packaging Details: standard wooden box with vacuum bay
- Delivery Time: 15 work days
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Product Name: High Speed Pick And Place Machine
- Model: HT-F7S
- No. Of Heads: 34pcs
- Optimal Speed: 180000cph
- Max Pcb Size: 1200*330mm
- Min Pcb Size: 100*100mm
- No. Of Camera: 5pcs
- No. Of Feeder Station: 68 Pcs
- Highlight: pick and place machine LED Lamp,
5pcs camera High speed SMT Mounter,
SMD Lamp High speed SMT Mounter

Product Description

Made in China LED SMD lamp pick and place machine

Introduction

HT-F7S is 180000cph high speed pick and place machine for led tube, strip light and panel light making, this machine with dual-arm, can produce 2~4 types of raw materials with high capacity at the same time.

HT-F7S pick and place machine feature

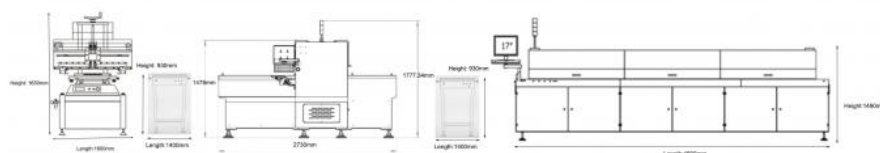

- ★ X-axis, Y-axis and platform use high-end magnetic levitation motor + servo motor, which improves the running accuracy and feed speed.
- ★ 5 sets of cameras: a Mark recognition camera, 2 nozzle debugging cameras and 2 feeder debugging cameras to ensure the accuracy of SMT.
- ★ Powerful functions: Equipped with high-speed motors and feeders of different sizes, it can complete the placement of different types of LED products.
- ★ Simple operating system: full English graphical interface, easy to operate. Intelligent programming, all programs can be stored, edited and recalled.
- ★ Maintenance: The operating system is simple and maintenance is very convenient. Maintenance costs and wearing parts costs are very low.
- ★ ETON is independently researched and developed with independent intellectual property rights.
- ★ Support customization

Technical parameter

HT-F7S pick and place machine	
Length* Width* Height	2700mm*2300mm *1550mm
Total weight	1700kg
PCB Size	Max:1200*330mm Min:100*100mm
PCB Clamping	Adjustable pressure pneumatic
Software	R&D independently
No. of camera	5PCS(Digital camera)
	Vision alignment, Mark correction
Mounting speed	150000-180000CPH
Components	LED3014/3020/3528/5050, capacitors, resistor, bridge rectifiers, etc
No. of feeders station	68PCS
No. of nozzles	34PCS
XYZ Axis drive way	High-end magnetic linear motor + servo motor
Feeding way	Electric feeder with double motor

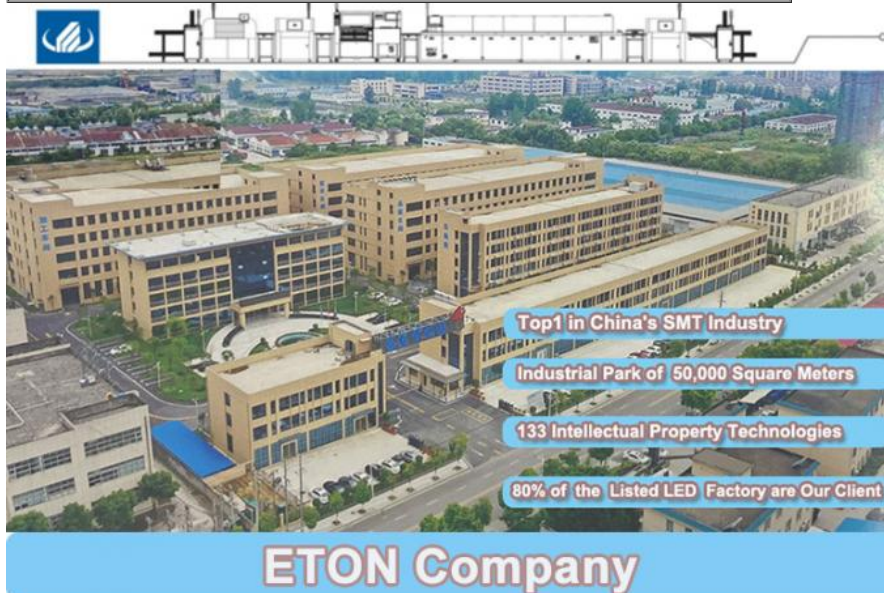

ETON- HT-F7S Semi-automatic Production Line

Why choose ETON HT-F7S pick and place machine

	ETON HT-F7S	HCT HCT-830L
No. Of heads	34pcs	36pcs
Optimal speed	180000cph	170000cph
Mounting precision	±0.02mm	±0.03mm
Weight	1700mm	1200mm
Company business model:	manufacturing + trade	trade
Conclusion: ETON pick and place machine more higher speed, precision and stable, and ETON has an industrial park of 52,000 square meters for R&D and production of machines; We has 132 patent certificates, and its products have been certified by CE, CCC, SIRA, RoSH, etc; There are showrooms, offices and local engineers overseas, like India, Egypt, Turkey, etc

Services

Free professional advice: For the production of SMT machine.

Free technical support: 7*24 hours online technical service.

Free installation and training: We have established offices overseas and can arrange engineers to go directly to the factory for free installation and training.

Free upgrade software: The machine software is developed by our company, so we provide life-long free upgrade software for customers who purchase the machine

FAQ

Q. Can I go and see if you have sold the equipment to India?

A. Yes, we have sold our machine in India, but for the fact we can't decide it for my customer, but I will try to contact my customer. Hope you can understand, because no one wants their competitors to visit their manufacturing site.

Q. How many products can your machine make per day?

A. The capacity of our machine is according to the real products, and the number of components on your PCB board that is important factor to figure out the actual speed of our machine with your products.

Q. Can I pay by L/C?

A. The procedure of L/C payment is complicated, which will waste a lot of time on payment. For more, you need to wait longer to get the machine, which will delay your production plan and delay the opportunity.

Q. Can I use CIF price?

A. CIF price need add the freight and insurance fee, while for the part of EXW which is cheaper and convenient factor as a suitable price for both sides.
