

led lamp making machine of 68 heads full automatic led flexible strip SMT pick and place machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE , ISO , CCC
- Model Number: HT-T9
- Minimum Order Quantity: 1 unit
- Price: USD 51000-76500 per set
- Packaging Details: vacuum wooden packing
- Delivery Time: 15-30 days
- Payment Terms: T/T, L/C
- Supply Ability: 50 Unit per month

Product Specification

- Name: Pick And Place Machine
- Model: HT-T9
- Feeders: 68 Pcs
- Heads: 68 Pcs
- Camera: 5 Sets
- PCB Size: 250 Mm* Any Length
- Feeding Way: Electric Feeder With Double Motor

Product Description

led lamp making machine of 68 heads full automatic led strip pick and place machine

Machine Parameter of led strip pick and place machine

| | |
|------------------------------|--|
| 3100mm*2300mm*1550mm | |
| Total weight | 1700kg |
| PCB Length width | 250mm*Any length |
| PCB Thickness | 0.5-1.5mm |
| PCB clamping | Vacuum adsorption, cylinder splint, adjustable track width |
| Transmission speed | >500mm/sec |
| Repeating Mounting precision | ±0.02mm |
| Component height | ≤5mm |
| No. Of feeders station | 68PCS |
| No. Of head | 68PCS |
| Power consumption | 6KW |
| Positioning way | Optical |
| Feeding way | Electric feeder with double motor |

Features of led strip pick and place machine

high-end magnetic linear motor , servo motor, stepper motor, ensure high mounting speed, high precision and high accuracy reach 250000 CPH optimum mounting speed with 68 feeders station and 68 heads
 Group to pick and group to mount, more sensitive and more intelligent
 5 sets of digital cameras achieve vision alignment and mark correction
 Software: R&D by ETON independently, freely upgrade whole lifetime
 Apply to any length of LED flexible strip, such as 5M,10M,25M,50M, 100M and so on

The full automatic Production Line of led strip pick and place machine

Automatic production line sticker to a certain extent of the accuracy is higher, because all the procedures are computer Settings, eliminate the error of human operation. In addition, the fully automatic production line is more labor-saving, usually one worker is enough.

ETON - HT-T9 100m full-automatic No-wire flexible strip Production Line

The SMT peripheral machines

We not only provide the SMT pick and place machine, but also provide SMT peripheral equipment, such as loader, stencil printer, conveyor, reflow oven, testing machine (AOI, SPI, X-RAY)

We Provide the whole SMT production line and solution according our client's requirement, we also support personal customization

No.1 Manufacturer in China

Company profiles

3 series of SMT pick and place machine which is mounting all kinds of products(LED light, led display, electric board, power driver and so on

Big intelligent industrial park, 7 buildings and more than 500 employees,Strong manufacturing capacity, have our own industrial park, the area of up to 500000 square meters

133 patents: 9 invention patents, 112 practical patents, 12 software copyright

Export More than 20 countries, India, Egypt, Turkey, Russia, Brazil and so on.

Oversea office and engineers provide freely installation, debug and training door to door.

Clients and customer factory
