Product has advantages over other similar product:

1. Transmission Motor adopts Fuji servo motor from Japan, ensure stability and precision control.
2. X, Y axis adopt imported servo driver from Japan, cooperate with imported linear railway, ensure that performance of high precision, high speed and excellent stability.
3. The Camera adopts Germany imported spare part, automatic visual auxiliary positioning, positioning is accurate, convenient.
4. Our feeder is electric feeder, can satisfy the requirement of different SMD LED components.
5. Programming software using database system, different types of PCB programming can be stored, convenient adjust, new product only need one time programming, can use at any time in the future.
6. Platform, Y, X can manually move, the movement speed free adjust, can achieve arbitrary point manually to arrive, convenient programming.
7. Software is easy to operate, can update anytime by free.
