

## multifunctional pick and place machine which mounting components in led chips,capacitors,IC

### Our Product Introduction

for more products please visit us on [smtmountingmachine.com](http://smtmountingmachine.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC,SIRA,CE
- Model Number: RT-1
- Minimum Order Quantity: 1PCS
- Packaging Details: WE USE VACUUM WOODEN BOC PACKAGE
- Delivery Time: 5-8 work days
- Payment Terms: L/C, T/T
- Supply Ability: 50PCS/Month

#### Product Specification

- Model: RT-1
- Warranty: 1 Year,12 Months
- Name: SMD Chip Mounter,SMT Pick And Place Machine,SMT Chip Mounter
- Application: SMD Production Line,SMT Mounting Shooter Machine,SMT Production Line,for SMT Machine
- Power Supply: 380V 50HZ
- Condition: 100% Original,Brand-new
- Product Name: Place Machine\ LED Mounter\LED Assembly Machine,Automatic SMT Mounting Shooter,SMT Shooter Machine
- Weight: 2000KG
- Mounting Speed: 40000 CPH
- Type: Automatic
- Usage: Circuit Board Assembly,SMT Mounting Machine,SMD,LED

## Product Description

**multifunctional pick and place machine which mounting components in led chips,capacitors,IC**

### Specification:

Dimension:1200\*1930\*1500mm

Total Weight:2000kg

PCB Length Width:Max:450\*350mm Min:80\*80mm

PCB Thickness:0.1-6mm

PCB Clamping:Pneumatic

Mounting Mode:Group picking and separate placingseparate picking and separate placing

No. of Camera:2 PCS

Mounting Precision:±0.04mm

Mounting Height:≤15mm

Mounting Speed:40000 CPH

Components:LED,capacitors,resistors,shaped components, etc.

Power Consumption:4kw

No. of Feeders Station:32pcs

No. of nozzles:10pcs

Transmission Speed: 1000mm/sec

### Features

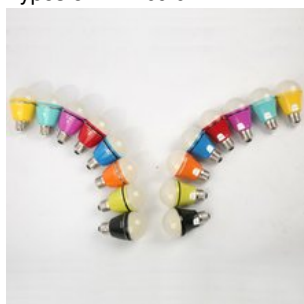

Single-module Magnetic linear motor multifunctional pick and place machine.

Electronic feeder feeding system.

Vision alignment flight identifications, Mark correction.

### About dob products

Types of LED bulb

1.Divided by shell:

(1)Led embossed aluminum bulb:With high-quality die-casting aluminum radiator and good appearance, it provides LED bulb lamps with Reliable heat dissipation guarantee can ensure long-term stable work.

(2)LED car aluminum bulb lamp.This is a low-level version of the LED die-casting aluminum bulb lamp, which appearance is worse than that of die-casting aluminum bulb, so the cost will also be lower than that of die-casting aluminum bulb.

2.According to the power points :LED bulb lamp 1W, 3W5W, 9W, 12W, 15W and other power, customers can according to the brightness requirements, choose.

3. According to the interface points:LED bulb lamp interface GU10, Giant 1, E B, E40 and so on.

At present, LED bulb lamp is easy to change and use, making this type of products widely accepted by the majority of household users, in the same light, LED bulb lamp power is one-tenth of the traditional white light, with half the power of cfls, efficient lighting is the best alternative to conventional lighting.

4.According to the lamp shell points: global bubble and hemisphere bubble.

5.According to the type of power supply points

(1)ordinary tungsten bulb: color rendering is very good, tungsten filament lamp after electrification color rendering is better,

more uniform spectrum, there will be no glare and so on;light source has many forms: the use of a wide range;the light source is relatively small;4 the range of light is relatively wide.

(2)DOB bulb:Features DOB means Drive On Board. It has no traditional drives and capacitors.

(3)linear bulb:Features: small current, low voltage, small size, light weight, high efficiency, low energy consumption, high color index, no heat, do not burn black lampshade, environmental protection and aesthetic advantages,etc. , belongs to the green lighting light source has good protection functions:short circuit protection,no-load protection,over-temperature protection,overload protection
