

LED Industry LED Bulb Making Machine Single Module 28pcs Feeder Pick And Place Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC,SIRA,CE
- Model Number: HT-E8S-1200
- Minimum Order Quantity: 1PCS
- Packaging Details: WE USE VACUUM WOODEN BOC PACKAGE
- Delivery Time: 5-8 work days
- Payment Terms: L/C, T/T
- Supply Ability: 50PCS/Month

Product Specification

- Model: HT-E8S-1200
- Warranty: 1 Year,12 Months
- Name: SMD Chip Mounter,SMT Pick And Place Machine,SMT Chip Mounter,smt Nozzle
- Application: SMD Production Line,SMT Mounting Shooter Machine,SMT Production Line,for SMT Machine
- Power Supply: 380V 50HZ
- Condition: 100% Original,Brand-new
- Product Name: Place Machine\ LED Mounter\LED Assembly Machine,SMT Shooter Machine
- Weight: 1700KG
- Mounting Speed: 45000 CPH
- Type: Automatic
- Usage: Circuit Board Assembly,SMT Mounting Machine,SMD,LED
- Dimension: 2550*1650*1550mm

Product Description

LED industry production machinery lin led industry for LED bulb making machines pick and place machine

Product Details

Model Number:E8S-1200
 Dimension:2550*1650*1550mm
 Heads:12pcs
 Weight:1700kg
 Mounting Speed:45000CPH
 Power:380AC 50HZ
 Feeder:28pcs single module
 Core Components:Motor
 Brand:ETON
 Visual camera:2set of imported camera
 Place of Origin:Guangdong, China
 Warranty :1 Year
 Machinery Test Report:Provided
 Delivery:Within 30 Days
 Supply Ability:50 Sets per Month

Features

Single module magnetic linear motor multifunctional pick and place machine

Mounting components:

LED chips/capacitors/resistors/lens/IC/shaped components,etc.

Component: Min. size 0402 Max. height 15mm

Application: Power driver. electric board. lens. linear bulb.DOB, household appliance etc.

Capacitor

Capacitor is the out of the village of electricity and energy components, capacitance energy is that can store the size of electrical energy, capacitance on the AC signal resistance known as capacities reactance, it is related to the frequency and capacitance of the AC signal. Capacitors play an important role in tuning, bypass, coupling and filtering circuits. Capacitors are characterized by alternating current (AC) and direct current (DC) isolation.

Category:

1. Classification by medium: Porcelain Medium, about 80% ; electrolyte as a medium has polarity, about 20% 2.5%. SMT capacitors: full name for SMT capacitors, multi-layer chip ceramic capacitor, also known as SMT capacitors, can also be divided into two types of polarity and non-polarity, non-polarity capacitors, 0805, 0603 is the most common; And a polar capacitor is what we usually call an electrolytic capacitor, usually the most used is an aluminum electrolytic capacitor, because

its medium is aluminum,so the temperature stability and accuracy are not very high,the chip component because of its close to the circuit board, so the requirements of high temperature stability,so the chip capacitor to tantalum capacitors.

About LED bulb

Led Bulb is the appearance of people have been used to the shape of the bulb-spherical, the internal light source selection is LED chip. With all the advantages of LED lamps and lanterns:

1. energy saving, environmental protection;
2. long life;
3. no strobe, Green.
4. More energy-efficient: LED lights consume a quarter of the energy, and incandescent bulbs last 1/10 as long :LED lights last up to 50,000 hours, five to 10 times longer than Energy Saving Lamp.
5. More Environmental Protection: no Mercury and other harmful substances, can be recycled to protect the green earth.
