

Automatic SMT Chip Mounting Machine LED Neon Light Pick Place Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC,SIRA,CE
- Model Number: HT-F7S
- Minimum Order Quantity: 1PCS
- Packaging Details: WE USE VACUUM WOODEN BOC PACKAGE
- Delivery Time: 5-8 work days
- Payment Terms: L/C, T/T
- Supply Ability: 50PCS/Month

Product Specification

- Model: HT-F7S
- Warranty: 1 Year,12 Months
- Name: SMD Chip Mounter,SMT Pick And Place Machine,SMT Chip Mounter
- Application: SMD Production Line,SMT Mounting Shooter Machine,SMT Production Line,for SMT Machine
- Power Supply: 380V 50HZ
- Condition: 100% Original,Brand-new
- Product Name: Place Machine\ LED Mounter\LED Assembly Machine,SMT Shooter Machine
- Weight: 1700KG
- Mounting Speed: 150000-180000cph
- Type: Automatic
- Usage: Circuit Board Assembly,SMT Mounting Machine,SMD,LED
- Dimension: 2700*2200*1550mm

Product Description

SMT chip making pick and place machine in led light about led neon light

Technical parameter

Dimension:2700*2300*1550mm

Total Weight:1700kg

PCB Length Width:Max:1200*330mm Min:100*100mm

PCB Thickness:0.5-5mm

No.of Feeder:68pcs

No.of Head:34pcs

PCB Clamping:Adjustable pressure pneumatic

Mounting Mode:Group picking and separate placing separate picking and separate placing

Software:R&D independently

Mounting Precision:±0.02mm

Mounting Height:<=5mm (Automatic Changing)

Mounting Speed:150000-180000 CPH

Components:LED,capacitors,resistors,rectifier etc.

Transmission Direction:Single direction (option)

About neon light

As an energy-saving and environment-friendly lighting product, the LED soft lamp belt has made great progress through continuous debugging and development, gradually meet the requirements of different lighting places and environments, a wide range of applications.

LED light strip also called LED soft strip, LED light strip, LED flexible strip, LED soft strip. At present, LED soft light belt is not only used in the field of indoor decorative lighting, but also in the field of urban lighting, landscape lighting, commercial lighting and some special lighting, which is only used in the field of indoor decorative lighting, at the same time also in the city lighting, landscape lighting, commercial lighting.

Electric component

Electronic components are components of electronic component and small-scale devices. They are often made up of a number of parts and can be used in similar products, it is a general name for capacitor transistors, gossamer, clockwork and other electronic devices. Common are diodes and so on. A component belongs to a device that does not require energy. It includes: resistance, capacitance, inductance. Can be divided into circuit components and connecting elements.

SMD

short for Surface mounted devices, meaning Surface mounted components, SMD is a type of SMT mounted component in the early stages of electronic circuit board production. Surface mount components are mainly rectangular chip components, cylindrical chip components, composite chip components, special-shaped chip components.

Classification: Chip Transistors and integrated circuits, integrated circuits including SOP, SOJ, PLCC, QFP, BGA, CAP, etc. .
Passive components by function: capacitors, resistors, induct-or, composite components and active components: diodes,
integrated circuits, switches, relays, connectors, motors
