

Electronics Production Lens LED Chip Mounter Machine Pick And Place Machine

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CCC,SIRA,CE
- Model Number: HT-E8S-1200
- Minimum Order Quantity: 1PCS
- Packaging Details: WE USE VACUUM WOODEN BOC PACKAGE
- Delivery Time: 5-8 work days
- Payment Terms: L/C, T/T
- Supply Ability: 50PCS/Month

Product Specification

- Model: HT-E8S-1200
- Warranty: 1 Year,12 Months
- Name: SMD Chip Mounter,SMT Pick And Place Machine,SMT Chip Mounter
- Application: SMD Production Line,SMT Mounting Shooter Machine,SMT Production Line,for SMT Machine
- Power Supply: 380V 50HZ
- Condition: New,100% Original,Brand-new
- Product Name: Place Machine\ LED Mounter\LED Assembly Machine,Automatic SMT Mounting Shooter,SMT Shooter Machine
- Weight: 1700KG
- Mounting Speed: 45000 CPH
- Type: Automatic
- Usage: Circuit Board Assembly,SMT Mounting Machine,SMD,LED

Product Description

electronics production machinery mounting for lens chip mounter machines pick and place machine

Product Details

Model Number:E8S-1200
 Dimension:2550*1650*1550mm
 Heads:12pcs
 Weight:1700kg
 Mounting Speed:45000CPH
 Power:380AC 50HZ
 Feeder:28pcs single module
 Core Components:Motor
 Brand:ETON
 Visual camera:2set of imported camera
 Place of Origin:Guangdong, China
 Warranty :1 Year
 Machinery Test Report:Provided
 Delivery:Within 30 Days
 Supply Ability:50 Sets per Month

Patents

Exclusive patented technology
 Electronic feeder feeding system.
 Vision alignment flight identifications, Mark correction.
 Non-stop material re-loading function
 Auto-optimization after coordinates generated, etc.

About lens

1. Definition of a lens a lens is an optical element made of transparent material (e. g. , glass, crystal, etc.) . Lenses can be divided into two general categories: convex and concave lenses. The central part is thicker than the edge of the part called convex lens, there are double convex, flat convex, four convex three. Convex lens has the effect of focusing light, so also known as "Convergence lens", "Positive lens". The central part is thinner than the edge called concave lens, there are double concave, flat four, convex concave three. Four lenses have the effect of diverging light, so also called "Diverging lens", "Negative lens". LED lens is a kind of optical system which can be used to change the light field distribution of LED according to the different effect.

LED application

(1) specific applications LED lens widely used in the field of LED lighting, such as: Street Lights, panel lights, lighting, low backlight, light box, etc. . Widely used in outdoor lighting, but indoor, lighting is also many. The categories of common lens products are as follows:

LED light box is made up of LED movable text screen in traditional light box. It is a new applicable product combining modern electronic technology and traditional technology. LED is the acronym for Light Emitting Diode (LED) . Its basic structure is an electroluminescent List of semiconductor materials, placed on a lead-wire shelf, and then sealed with epoxy around to protect the internal core wire.

FAQ

Q:Do you have wave soldering machine?

A:Sorry, at present, we are the manufacturer of pick and place machine, but also provide the related SMT machine, such as reflow oven, stencil printer, conveyor, loader machine and so on.

Q:Can i visit the production site of your machines in India?

A:i ahve to ask my client. After all,this is our customer's factory.we cant not make decisions for my clients. I think that you wouldn't want your competitors visit your manufacturing site.please understand.
