50m 100m 200m Flexible Strip Making Machine LED Light Production Line

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CCC
- Model Number: T9-2S

Product Specification

- Highlight: Double rail Flexible Strip Making Machine, digital camera Flexible Strip Making Machine, 100m LED Light Production Line

Product Description

LED Roll 100M strip light production line

100M strip light production line

100M / 50M/200M/ any length LED strip light all are using the necessary step:

1. Prepare the raw material, such as the SMD components(LED chip/resistor), solder paste, FPCB, etc

2. Confirm which part need produce by yourself. For roll led strip light, there are different part, mainly included: LED lighting board, Glue part.

Some will buy skd from led lighting fpc supplier and assembly by themselves. For big manufacturing, usually need prepare whole line for producing whole lamp

3.Main Machine list:

SMT Line	In this line, the finished product is FPCBA, the lighting board, mainly included: printer, pick and place machine 25M belt line, reflow oven machine, roll unloader machine
Test and checking line	After SMT line will need test the whole FPCB, like lighting test, material miss checking
Splitting line	After test lighting, will need splitting the whole FPCB into the single led strip light
Extraction line	By this line is glue the led light for waterproof

Above main four steps, the whole led lamp is finished, only need packing and test light again.

100M strip light mounter machine

Today , specially want to share the ETON specially led strip light pick and place machine/mounter/placement machine, here are the main Parameter

Machine Name	Pick and place machine/ chip mounter machine
Mounting speed	500000 chip per hour
PCB clamping	Vacuum adsorption, cylinder clamping, track width adjustable
Mounting mode	Double rail four groups of placement heads
No.of camera	10 sets digital camera
Components	LED/Resistor/IC/ bridge rectifiers/ capacitor

With this super high speed led chip mounter, could reach 2000Meter capacitor per hour!
