

Roll To Roll LED Strip Mounting Machine 250K CPH 68 Nozzles Pick And Place Machine HT-T9

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: ETON
- Certification: CE, CCC, SIRA
- Model Number: HT-T9
- Minimum Order Quantity: 1 set
- Packaging Details: vacuum adsorption, wooden packing
- Delivery Time: 30 days after receive the down-payment
- Payment Terms: T/T
- Supply Ability: 50 sets per month

Product Specification

- Name: Pick And Place Machine
- Module: HT-T9
- Local Service: India, Egypt, Vietnam
- Warranty: 1 Year
- Applicable Components: 0402
- Condition: New
- Highlight: Dual arm LED Strip Mounting Machine,
High precision LED Strip Mounting Machine,
68Nozzles Pick And Place Machine

Product Description

Roll to Roll strip making mounter HT-T9 250K with 68 nozzles pick and place machine

Machine features

Super High-speed pick and place machine, producing with four types material at the same time with high capacity, available for 5M, 50M or any length of flexible strip and roll to roll.

Machine functions: Picking components and mount on the PCB automatically.

Intelligent PCB Clamping mode: Vacuum adsorption, cylinder splint, adjustable track width.

Exclusive patent technology :Group to take and group to mount

Dual arm four module, 17 nozzles for each mounting part, part A or part B can be mounted separately or synchronously.

High precision, Calibration automatically, available for RGB.

Easy operational program, much more convenient, automatic vision makes position fixing more accurate and convenient.

Optinal :8mm,12mm,16,and 24mm automatic feeder, different nozzles and feeding way

Advantages

*Dual arm magnetic linear high-speed SMT machine.

*Producing 4 types materials at the same time.

*Vision alignment ,Mark correction.

*The mounting speed can reach 250000CPH.

*It can produce flexible light strips of any length.

*Mounting components: LED 3014/3020/3528/5050 and capacitors, resistors, bridge rectifiers.

Specification

Length	3100mm
Width	2300mm
Height	1550mm
Total weight	1700kg
PCB size	250mm*any length
PCB thickness	0.5-1.5mm
Mounting height	≤5mm
Mounting speed	250000CPH
No.of head	68PCS
Mounting precision	±0.02mm

Clients Projects

100M Strip Light SMT Production Line

ETON helped the client to plan the 100M production line, including the patch production line: PCB loader-semi-automatic printing machine-The buffer stage-high-speed pick and place machine - 24M assembly line - reflow oven - PCB unloader, and also planned 24M test line, sub-board line, coating production line. The client put into production in 2021, and the production situation is very good. ETON technicians installed the machine in the client's factory, planned the wiring, tested the production, and trained the client's engineers. The client's project was very successful, becoming one of the few in India that can provide 100M without wires. The factory for the production of all flexible light strips is very competitive, and now is planning add a new SMT production line with ETON to expand production and LED product categories.

After sales service

Maintenance period 1year

One year warranty, during warranty, any parts need to be repaired and replaced will be free.

Software and hardware lifetime maintenance

Free upgrade software, software is Reach and develop by ETON, so we support whole lifetime free upgrade updates.

Visit customers regularly and gather information

Visit clients regularly. We attend different exhibition in different cities every year, at the same time, we will visit local clients and support our service and collect and feedback customer suggestions in time.

Provide latest information about technology and equipment

We give professional technology suggestion with our clients.And share the updates news to our clients
