

Ultra High Speed SMT Production Line Strip Light LED Chip Mounter 500000CPH

Our Product Introduction

for more products please visit us on smtmountingmachine.com

Basic Information

- Place of Origin: China
- Brand Name: ETON
- Certification: CE,CCC,SIRA
- Model Number: T9-2S
- Minimum Order Quantity: 1 Set
- Price: USD 87,000.00 1Unit
- Packaging Details: Filming packing、 vacuum packing、 wooden packing
- Delivery Time: 30 work days
- Payment Terms: L/C, T/T
- Supply Ability: 50 Sets per month

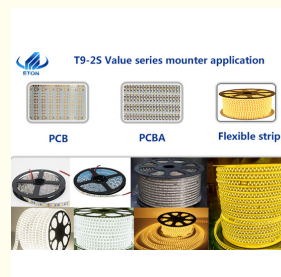

Product Specification

- PCB Size: 250(±10)mm*any Length
- PCB Thickness: 0.1-0.5mm
- PCB Clamping: Vacuum Adsorption,cylinder Clamping,track Width Adjustable
- Mounting Way: Group Picking And Group Placing
- Mounting Mode: Double Rail+Four Groups Of Placement Heads
- Mounting Speed: 500000CPH
- No.of Heads: 136 PCS
- No.of Camera: 10 Sets
- Components Range: LED 3014/3020/2835/5050
- Feeding Way: Intelligent Electric Feeder With Double Motor
- No.of Feeder Station: 136 PCS
- Highlight: **SMT Production Line Chips Mounter, Strip Light LED Chip Mounter, LED Chip Mounter 500000CPH**

Product Description

SMT Production Line LED Chips Ultra-High Speed Strip Light SMT Machine Capacity Reach 500000CPH

Features

Machine feature

High productivity: ETON tech adjustable placement head; unique design component leaking detection and individual component refill function; ultra-high-speed capacity

Flexible production: adjustable the conveying platform according to various roll to roll strip, range 250 ± 10 mm, the max length range is 1M per cycle.

The distance of feeder station can be flexibly adjusted to achieve group picking and group placing, so as to realize the function of two time picking and once placing.

The range of feeding station is double o placement head, can produce four kinds of materials at the same time.

Intelligent electric feeder, supporting high-speed machine series.

High performance: flight recognition camera, no pause to detect the presence or absence of components, component adsorption state, prevent placement errors.

Automatic production with identification data, correction and fill missing component automatically.

The clamping rod is driven by the air cylinder to correct the materials taken by mounting head.

With the function of filling missing component automatically, realize industry 4.0 unmanned workshop.

Compliant with CF standards.

Product Picture

The image shows a large industrial SMT machine, the ETON SMT MACHINE 500000CPH SMT Innovation T9-2S. The machine is white with blue accents and features a large digital display on the front. It is surrounded by several circular inset images showing various electronic components: a multi-pin connector, a reel of components, a multi-colored LED strip, a resistor, a bridge rectifier, and a small component. The background is dark blue with a grid pattern and the text 'ETON SMT MACHINE' and '500000CPH' prominently displayed. Below the machine, the text 'SMT Innovation T9-2S' is shown, followed by a list of features:

- Adjustable conveying platform range 250 ± 10 mm
- Produce four kinds of materials at the same time
- Apply to: LED3014/3020/2835/5050 resistor, bridge rectifier etc
- Unique design component leaking detection and individual component refill

At the bottom of the image, there is a row of small icons representing different types of SMT machines.

Machine parameter

Model	T9-2S
PCB size	250±10mm*any length
PCB thickness	0.1-0.5mm
PCB clamping	Vacuum adsorption, cylinder clamping, track width adjustable
Mounting way	Group picking and group placing
Mounting mode	Double rail + four groups of placement heads
Mounting speed	Double size:500000CPH Single size:250000CPH
Components range	LED 3014/3020/2835/5050 and resistor, capacitors, bridge rectifier etc.
No.of feeder station	Double side: 136PCS(single side: 68PCS)
No.of head	Double side: 136PCS(single side: 68PCS)
Feeding way	Intelligent electric feeder with double motor

Company introduction

Shenzhen Eton Automation Equipment Co., Limited is a professional manufacturer focusing on pick and place machine and peripheral equipment.

We have 10-year experience in SMT machine, with unique understanding of SMT technology, we provide long-term professional services to domestic and foreign electronic company, leading SMT equipment technologies.

With good quality, competitive price, easy operation. Our products are very popular in SMT.

Up to now, our products are already sold in many countries such as South Korea, India, Vietnam, Tunisia, Egypt, Turkey, Russia, Brazil. We will continue to make great efforts to satisfy the customers' requirement.

Service

7*24 technical online support

Professional training of operating and maintenance

Provide free installation machine to ensure smooth production

Quality First, Client-oriented, Continuous Improvement

We promise to allow customers to clearly know the completion of the product

In strict accordance with the relevant provisions of the contract terms of production, delivery, to ensure product intact and in place within the stipulated time to customer requirements

Visit customers regularly and gather information

Company five level management policy: sincere business, focus on R&D, manufacturing intentions, considerate service, customer trust

FAQ

Q: If machine have any problem after I receive it , how can I do?

A: During the warranty period, we will replace it for you free, or we can arrange a process engineer to repair it for free

Q:What are your advantages?

A: Our company stick to five level management policy: sincere business, focus on R&D, manufacturing intentions, considerate service, customer trust.

What's the terms of payment? What about the trade term?

T/T, L/C are OK. 30% pay in advance, the balance before shipment. You can choose EXW Shenzhen.

what's the minimum quantity of an order for your company?

1 set machine are welcomed to order, mixed orders are also welcomed.
